

# CITY OF TACOMA, WASHINGTON OFFICE OF THE CITY COUNCIL COUNCIL CONSIDERATION REQUEST

**TO:** Mayor & City Council

**FROM:** Deputy Mayor John Hines, Council Member Kristina Walker, and Policy

Analyst Christina Caan

**COPIES TO:** Elizabeth Pauli, City Manager; Chris Bacha, City Attorney

SUBJECT: Resolution – Council contingency fund request to support an urban

wood reuse program assessment and action strategy

**DATE:** October 23, 2024

We ask for your support for a Council contingency fund expenditure of \$20,000 to support an urban wood reuse program assessment and action strategy.

#### LEGISLATIVE INTENT

**Council Contingency Fund Request:** We ask for your support for a Council contingency fund expenditure of \$20,000 to support the development of an urban wood reuse program assessment and action strategy. This work would help enable the City of Tacoma's Urban Forestry Team to set up the first formal urban wood reuse program within the city. The City would contract the work with Cambium Carbon, a unique and innovative company that evaluates and assists in the creation of local regenerative wood supply chains. With assistance from Cambium Carbon, the City would be able to design a program that diverts wood from the landfill for its highest and best use, as well as integrating wood reuse into a holistic urban forestry management strategy.

In early 2023, the City began a small pilot program that enabled the diversion of waste from hazardous trees within historically underserved communities by coordinating a partnership between the City's on-call tree work contractor and a hyper-local mill. This program has shown a great deal of promise, but expansion requires a more robust understanding of the wood waste stream and biomass processing solutions. With a better understanding of how to expand this work, Tacoma would be well-positioned to navigate tree removal in a way that helps ensure removed trees are kept out of our waste stream.

- The specific objectives of the study are designed to evaluate the wood waste stream, engagement with key stakeholders, development of an ecosystem map, a complete economic and market analysis of biomass processing solutions, and a proposed collective action strategy. This work will take an estimated 18 weeks from the official start date to be completed and Environmental Services staff have confirmed capacity to manage the contract.
- The City's Solid Waste Management Division intends to match the Council contingency fund with an additional \$20,000 to cover the full cost of the work, as it aligns with their goals for waste reduction.

This work would help advance key components of the City's Climate Action Plan, Urban Forest Management Plan, and Green Economic Development Strategy.

- The Climate Action Plan notes the need to develop and enhance Tacoma's local circular economy and foster the reuse of materials. Establishing a wood reuse program is also in alignment with Climate Action Plan goals to reduce carbon emissions and increase deconstruction and salvage efforts.
- The Urban Forest Management Plan, adopted by the City Council in 2019, includes several targets and actions related to urban wood reuse, such as: establishing protocols for tree debris management, wood utilization, and wood waste diversion for routine tree maintenance, removals, and storm response, as well as reusing wood waste from high-risk tree removals as biomass, woodworking, firewood, and other uses.<sup>2</sup>
- Tacoma's Green Economic Development Strategy calls for increasing efforts to create new jobs and tap new markets for work that has environmental benefits.<sup>3</sup> The development of an urban wood reuse program assessment and action strategy would help contribute to laying the groundwork for action that helps to advance this strategy.

FUNDING REQUESTED: \$20,000

DESIRED RESOLUTION DATE: November 5, 2024

## **COMMUNITY ENGAGEMENT**

During the two-year public engagement process (2017 through 2019) to develop the City's Urban Forest Management Plan, community members shared a robust concern for trees and climate related goals. While their primary concerns were supporting mature tree protection, there was a recognition that trees, like all living things, one day reach the end of their productive life. When trees need to be removed for public safety or to allow for construction, the community called for the City to put trees to their highest and best use, to continue to hold their embodied carbon and remove downed trees from the wood stream. Deputy Mayor Hines and Council Member Walker have also been in contact with local wood companies regarding their desire to expand programs that support the reuse of wood.

#### **2025 STRATEGIC PRIORITIES**

**Equity and Accessibility:** This study will be vital for creating the design and partnerships that are needed to launch a wood waste reuse program, which will contribute to improving Tacoma's circular economy, decreasing the wood waste stream, and addressing carbon emissions reductions. In addition, such a program would help expand business opportunities across the city, potentially creating new sources of revenue and jobs for the local economy.

**Economy/Workforce:** *Equity Index Score*: Moderate Opportunity Increase the number of infrastructure projects and improvements that support existing and new business developments.

<sup>&</sup>lt;sup>3</sup> From Climate Emergency to Shared Prosperity: Tacoma's Green Economic Development Strategy (cityoftacoma.org)

**Livability:** *Equity Index Score*: Moderate Opportunity

How does your policy, program, or service help or harm the health of the natural environment?<sup>1</sup> (e.g. reduction in carbon emissions, open space conditions, sustainability, clean air, water and soil, and noise and light pollution).

## **ALTERNATIVES**

Alternative	Positive Impacts	Negative Impacts
Provide less funding	Preserve some additional	The City would not be able to assess
	contingency funds for other	and design an effective urban wood
	Council priorities.	reuse program.
Provide more	Cambium Carbon could provide	The Council would not have additional
funding	additional services to help	funds for other Council priorities.
	launch a citywide urban wood	
	reuse program.	

#### **EVALUATIONS AND FOLLOW UP**

The Infrastructure, Planning, and Sustainability Committee will receive an update on the findings of this study and next steps on how implementation will move forward when it is completed.

#### SPONSOR RECOMMENDATION

Sponsors recommend providing \$20,000 to support an urban wood reuse program assessment and action strategy.

## **FISCAL IMPACT**

\$20,000 from Council contingency funds.

If you have a question related to the Council contingency fund request, please contact Christina Caan, Policy Analyst, at (253) 219-0679 (phone) or <a href="mailto:ccaan@cityoftacoma.org">ccaan@cityoftacoma.org</a>.
