Why Choose the Environmental Sciences & Technology Program?

With the constant population growth and development of new technologies, environmental impact is a vital focus. Students in CPTC's Environmental Sciences & Technology program train for a wide range of career opportunities in the field of environmental science. Some of the training opportunities include hands-on water-quality monitoring; soil, water, and air sampling; mineral identification; wetland delineation and restoration; geographic information system mapping; and simulated hazardous waste site cleanup operations. This program takes advantage of CPTC's 110-acre outdoor learning laboratory at Flett Creek, across the street from our Lakewood Campus. If you love the outdoors and have a passion for nature, this program and career path might be your perfect fit.

Why Choose the Interior Design Program?

Interior design is a dynamic profession, with numerous paths ranging from hospitality to residential, kitchen and bath, sustainable design and more. Our Interior Design program features instructors who are active in the design community, bring realistic projects to the classroom and are committed to providing the most current materials and standards of the interior design profession. Students learn new ways of looking at their surroundings, gain new skills and build confidence in themselves. If you like problem solving, being creative and expressing yourself, this program and career path can provide you the opportunity to make a difference in people's lives through their living and working environments.

Early Childhood Education

CREATING A GREEN CLASSROOM CERTIFICATE

Home > Early Care & Education > Creating a Green Classroom Certificate

Designed for beginning and experienced Early Care & Education teachers who are eager to increase their skill in creating and maintaining sustainable (green) practices in their work with children of all abilities.

Classes are offered in the evenings with arranged practicum experience.

Employability Requirements: To become a licensed child care provider in Washington, you must participate in a Department of Early Learning (DEL) licensing orientation and apply for and receive licensure. State law requires DEL to run background checks on anyone who is authorized to care for or who has unsupervised access to children in licensed child care facilities.

Note: All courses must be completed with a minimum of a C grade to graduate.

CERTIFICATE INFO AT A GLANCE

Type
Certificate

Estimated # of Quarters
This certificate is approximately 4 quarters long, depending on the time students need to satisfactorily complete all graduation requirements.

Admission Dates
Summer, fall, winter and spring quarters.

Prerequisites
