

City of Tacoma
Public Works Department

On Tuesday, May 13, 2014, the City Council will conduct a public hearing on the *Six-Year Comprehensive Transportation Improvement Program Amended 2013-2014 & 2015-2020*.

Section 35.77.010 of the Revised Code of Washington (RCW) provides that the legislative body of each city and town prepare and adopt a comprehensive transportation program for the ensuing six calendar years and annually thereafter pursuant to one or more public hearings, prepare and adopt a revised and extended comprehensive transportation program, and each one year extension and revision thereof will be filed with the Secretary of Transportation of the State of Washington. Section 35.77.010 of the RCW further provides that each city will include in their comprehensive transportation program how they intend to expend the revenues for non-motorized transportation purposes. The comprehensive transportation program can be amended at any time with City Council adoption after a public hearing.

The program includes roadways, bridges, non-motorized facilities, sidewalks and other capital related transportation projects. The program is based upon anticipated revenues versus desirable projects. There are always more projects than available revenues.

The proposed addition of one project, North Vassault Street Sidewalk Project, to *Six-Year Comprehensive Transportation Improvement Program Amended 2013-2014 & 2015-2020* was approved by the Infrastructure, Planning and Sustainability Committee to forward to City Council for adoption on April 9, 2014.
