

## **ORDINANCE NO. 28845**

AN ORDINANCE relating to Electric Energy; amending Chapter 12.06 of the Municipal Code, "Electric Energy - Regulations and Rates," to add a new Section 12.06.374, entitled "Electric Vehicle Public Charging Provided by Tacoma Power - Schedule EVPC," to replace the existing fee structure of \$2 per five hours to a new fee of \$0.21 per kilowatt hour, effective January 1, 2023.

WHEREAS Tacoma Power has provided electric services to utility-owned electric vehicle ("EV") charging stations since 2012, and currently operates 51 EV chargers, and

WHEREAS, in 2021, Washington State passed Senate Bill 5192 regarding EV service provider disclosures, codified as Revised Code of Washington ("RCW") 19.94.560, and

WHEREAS RCW 19.94.560, in part, requires that all EV service providers must disclose to the user the price to refuel in United States dollars per kilowatt-hour ("kWh") or megajule by January 1, 2023, and

WHEREAS in compliance with the new state regulation, Tacoma Power developed a cost-based price for EV public charging of \$0.21 per kWh, which includes Schedule B (Small General) electric rates, networking fees, maintenance costs, and all relevant taxes, and which replaces the current set fee of \$2 per five hours, and

WHEREAS Tacoma Power researched the prices charged by other utilities and private companies for public EV charging service, and the new rate is competitive with rates offered by other service providers in the region, and

WHEREAS Tacoma Power has also notified EV charging vendors about the upcoming changes, and

WHEREAS cost-effective public charging removes barriers to accessing the benefits of EVs, such as lower long-run transportation costs and cleaner air, and

WHEREAS all EV public charging sites owned by Tacoma Power are accessible to the general public, and the public charging program is designed to expand access to EV charging services in low-opportunity neighborhoods and for those customers who do not have access to at-home charging; Now, Therefore,

## BE IT ORDAINED BY THE CITY OF TACOMA:

Section 1. That Chapter 12.06, "Electric Energy - Regulations and Rates," is hereby amended to add a new Section 12.06.374, entitled "Electric Vehicle Public Charging Provided by Tacoma Power - Schedule EVPC," to read as set forth in the attached Exhibit "A."

Section 2. That the change from the existing fee structure of \$2 per five hours for Electric Vehicle charging, to the new fee structure of \$0.21 per kilowatt hour, is effective January 1, 2023.

Section 3. That the City Clerk, in consultation with the City Attorney, is authorized to make necessary corrections to this ordinance, including, but not limited to, the correction of scrivener's/clerical errors, references, ordinance numbering, section/subsection numbers, and any references thereto.
