5 WHEREAS the Leach Creek Stormwater Holding Basin provides critical

11

12 WHEREAS over years, through the buildup of accumulated sediments and
13 overgrown vegetation, the capacity and operational efficiency of this holding basin
14 has been reduced. The purpose of the proposed project is to alleviate future
15 destructive flooding events that could occur downstream of the holding basin in
16 Leach Creek and Chambers Creek, and improve the operational efficiency of the
17 stormwater pump station and address maintenance concerns at the outlet
18 structure, and
19

20 WHEREAS the City has complied with all applicable laws and processes
21 governing the acquisition of those supplies, and/or the procurement of those
