

PETITION TO TACOMA CITY COUNCIL

Save Cushman Substation
from developers!

Whereas the historic Cushman and Adams Substations were built by the residents of Tacoma for the benefit of Tacoma residents; and Whereas these buildings of nationally historic significance have been listed on national, state and local registers of historic places and their value recognized as integral to our shared collective history as a community; and Whereas the Tacoma Comprehensive Plan Policy UF-13.28 for this area of Tacoma states that the City should "Encourage the conversion of electrical substations for recreational purposes if the sites are no longer needed for their intended purpose" (pg. 2-61),

Therefore, we the people of Tacoma, request that the Tacoma City Council:

1. **protect the Cushman and Adams Substations from private for-profit development** and work to ensure that the buildings and property be retained for public use in perpetuity;
2. **direct City of Tacoma staff to conduct a thorough and robust public process** to engage residents in planning for the future community use of these publicly-owned assets and the development of a master plan for the entire site;
3. **instruct the City Manager to conduct a study of examples of other cities that have repurposed similar surplus electrical facilities** for productive community uses, the means through which such facilities were funded, and to provide the results of such a study to the Council and the residents of Tacoma;
4. instruct the City Manager to **work with community nonprofit organizations toward the goal of repurposing and managing these buildings as public facilities** for the benefit of the community.

PETITION TO TACOMA CITY COUNCIL

Save Cushman Substation
from developers!

Whereas the historic Cushman and Adams Substations were built by the residents of Tacoma for the benefit of Tacoma residents; and Whereas these buildings of nationally historic significance have been listed on national, state and local registers of historic places and their value recognized as integral to our shared collective history as a community; and Whereas the Tacoma Comprehensive Plan Policy UF-13.28 for this area of Tacoma states that the City should "Encourage the conversion of electrical substations for recreational purposes if the sites are no longer needed for their intended purpose" (pg. 2-61),

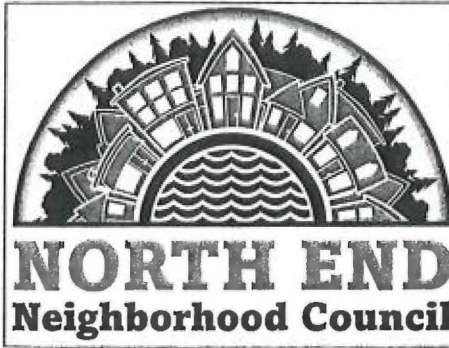

Therefore, we the people of Tacoma, request that the Tacoma City Council:

1. protect the Cushman and Adams Substations from private for-profit development and work to ensure that the buildings and property be retained for public use in perpetuity;
2. direct City of Tacoma staff to conduct a thorough and robust public process to engage residents in planning for the future community use of these publicly-owned assets and the development of a master plan for the entire site;
3. instruct the City Manager to conduct a study of examples of other cities that have repurposed similar surplus electrical facilities for productive community uses, the means through which such facilities were funded, and to provide the results of such a study to the Council and the residents of Tacoma;
4. instruct the City Manager to work with community nonprofit organizations toward the goal of repurposing and managing these buildings as public facilities for the benefit of the community.

Doug Crane	Tacoma, WA	2017-06-09	This historic public asset should be preserved, retained, and continue to serve the residents of Tacoma as a public use property.
Michael Lafreniere	Tacoma, WA	2017-06-10	This building holds enormous potential as a public park and public facility. The City should consider utilizing the Project for Public Spaces organization (www.pps.org) to engage residents in a robust process to determine and help realize a future for this amazing and historic community-owned asset. A similar placemaking effort was done by them for Tollefson Plaza on Pac Ave.
Tom Cunningham	Tacoma, WA	2017-06-10	Keep it safe.
Samantha Sonju	Tacoma, WA	2017-06-10	this property must be preserved and protected for public use. A park, indoor market, or community center, would all be a great asset to the neighborhood as we grow. Green space! Gathering space! Good for our community. Good for our city.
Aubri wing	Tacoma, WA	2017-06-10	Please make this space something that the community at large can enjoy. We need a community center in the north end and this would be a wonderful use of this building and land.
Bradley Thompson	Tacoma, WA	2017-06-10	Protect the incredible Cushman substation and its property for the public benefit of all Tacomans. Involve artists and nonprofits to imagine creative repurpose.
Claudia Riedener	Tacoma, WA	2017-06-10	We have the responsibility to preserve this for future generations. It was built to last. Let's protect it.
Maria Remick	Tacoma, WA	2017-06-11	I would like to see it put to good use
susan ryan	Tacoma, WA, WA	2017-06-11	The Cushman Power Project was approved by Tacoma voters and paid for by 1940. The purpose was for it to be public and it should remain that way.
Alison Hale	Tacoma, WA	2017-06-11	Let's preserve this beautiful piece of Tacoma history--not pass it off to the highest bidder.
aislinn melchior	Tacoma, WA	2017-06-11	Stop destroying Tacoma history. These are gorgeous historical buildings, and the developers are putting up ugly and soulless buildings that are burdening our infrastructure.
Jeff Ryan	Tacoma, WA	2017-06-11	Purchased by the Citizens of Tacoma in 1925 the property should be retained by the public for the enjoyment of the many rather than the profits of a few.
Jodi Cook	Tacoma, WA	2017-06-11	One Tacoma Comprehensive Plan clearly states policy for decommissioned Substations for public recreational use. Other goals and policies support need for open space to support the Proctor Neighborhood Mixed Use Center zoned for greater density. There are no neighborhood parks within a 20 minute walk, for those

Name	Location	Date	Comment
			who require flat surfaces. The steep slopes and gulches reaching the waterfront do not support the disabled, older generations or small children.
Alaina Anderson	Clinton, SC	2017-06-11	Save the history
Paul BLANCHARD	Tacoma, WA	2017-06-11	This would make a great community center, library, or even innovation school like SOTA or SAMI.
Becky Stroud	Tacoma, WA	2017-06-13	I have lived in the Proctor area my entire life and I live directly across the street from the building. It has been as much a part of my life and the lives of this community as Mt Rainier. A structure so familiar and comforting as home. Our community needs this beautiful building as a community center.
Pat Fletcher	Tacoma, WA	2017-06-13	This elegant building could be an excellent community resource while maintaining its historical character.
Donna Van Cleef	Tacoma, WA	2017-06-13	The substations are valuable public assets that belong to the people and need to stay that way. They should not be sold for private development.
Shari Crumbaker Miller	Tacoma, WA	2017-06-13	I love this building and it has so much potential for our City!! Please don't allow it to be destroyed!
victor Anderson	tacoma, WA	2017-06-13	This is part of what makes tacoma great
Melvin Miller	Tacoma, WA	2017-06-13	I grew up across the street from this iconic building. Fond memories over these past 76 years. We do not need another Proctor Station to destroy our community.
Anne Hopper	Tacoma, WA	2017-06-13	For decades I have admired the substation as I drive or walk by it, and the idea of the building being preserved and made freely accessible to the public is delightful ! (And the notion of the building profiting private developers would be very un-delightful.)
Zubalik Susan	Tacoma, WA	2017-06-13	This is an historic building and should remain a public asset. Slow down the break neck densification and congestion in the Proctor District.
Polly Shevlin	Steilacoom, WA	2017-06-14	I believe in preservation over profit.
Dayle Nelson	Tacoma, WA	2017-06-14	I have admired that lovely old building for the 30+ years I have lived in the North End. The building and the land it sits on should remain in public trust, and allowed to become a new incarnation of itself, where people may find a place of peace, community and respite.
Ruth Peterson	Tacoma, WA	2017-06-14	Public facilities should remain public
Harriet Millheisler	Tacoma, WA	2017-06-14	Tacoma needs to do the right thing!
Patricia Truselo	Puyallup, WA	2017-06-14	I lived in that area for many years & the the Cushman building is a beautiful historic building for all who live in the neighborhood now & in the past . It would make a wonderful community center . We need to bring our neighborhoods back to being friendly

Name	Location	Date	Comment
			communities again . What better place to get to know your neighbors than a community center !
Catherine Cruver	Tacoma, WA	2017-06-15	We need more trust that the City of Tacoma and the City Council will do the right thing for the citizens of Tacoma.
Janet Hedlund	Tacoma, WA	2017-06-17	I agree with saving the substation from developers.
Julie Thomas	Tacoma, WA	2017-06-19	This building is architecturally interesting. I would love to see it function as a public space. Public offices for the city of Tacoma or a walk in clinic for the neighborhood. We certainly do not need another 'high density condo/apartment building in the midst of single family homes.
Gregg Houkom	Tacoma, WA	2017-07-05	I love these old buildings and, as the destination for the electrical lines crossing the Cascades, think their historical relevance should be preserved.
Stacy Becker	Kent, WA	2017-07-05	I believe traditional architecture does and will long outlive contemporary architecture.
Ray Marchan	Anaheim, CA	2017-07-05	Preserve the beauty!
Jeremy Lester	Britt, IA	2017-07-05	History needs to be preserved despite the cost.
Sarah Morken	Tacoma, WA	2017-07-06	That is a beautiful, priceless building that belongs to the community and should always belong to the community. Save this! What great community uses it could be for!
Evaline Belluche	tacoma, WA	2017-07-06	The less obscenely overpriced condos that profit rich jerks while folks need affordable homes, the better. Honor the original agreement
beverly Ann christie	Tacoma, WA	2017-07-06	Use this space for public arts music and dance- this is public property
AnneMarie Stirbis	Tacoma, WA	2017-07-06	Please, let's find a use for this building that Tacomans can enjoy and be useful for us all.
Stephanie Smith-Bright	Tacoma, WA	2017-07-06	Historical buildings need to be preserved for public use or enjoyment. We need more community spaces and places that encourage face to face interaction and offer community services.
April L. Reid Reid	Tacoma, WA	2017-07-06	I recently visited the Powerhouse in Puyallup and gained a whole fresh perspective on the potential for these classic old structures.
Ash Sulzer	Tacoma, WA	2017-07-06	I am holy sick of developers coming in and tearing down historic sites to put money in their pocket, raise rent rates that ultimately gentrify the area making it impossible for the generations who have lived here to continue to live here.
Malakay Betor	Richland, WA	2017-07-07	We need to keep public property for the public.
Carl Anderson	Tacoma, WA	2017-07-07	To support Tacoma

Name	Location	Date	Comment
Judt Shrode	Tacoma, WA	2017-07-07	It is the obviously right thing to do...Improve and develop Tacoma for the benefit of the community. That simple.
Theresa Dullea	Seattle, WA	2017-07-08	This makes sense. Keep it for the public not for private and profit organizations.
Karen Ramage	Tacoma, WA	2017-07-09	Public property needs to remain public!
Patricia Savage	Seoul, South Korea	2017-07-13	This is a remarkable building and piece of property that, including its original purpose, is a true piece of art. My visitors are always shown this as 'part of Tacoma' and they, too, love the bldg and site. Please do not take this treasure away.
Marlene Motola	Tacoma, WA	2017-07-13	I have imagined the Adams Substation Building to be a true community asset to Proctor District. The potential for community uses is huge. No developer has the right to take this away from us. It should house non-profit organizations that contribute positively to the neighborhood and city.
John Barnes	Tacoma, WA	2017-07-13	This beautiful building should be repurposed to meet the needs of the increasingly dense Proctor District population.
Hannah McLeod	Tacoma, WA	2017-07-13	These are beautiful buildings and should be used for the public good.
Tessa Tallariti	Tacoma, WA	2017-07-13	I like the building and history and live right across the street
Renee Stein	Tacoma, WA	2017-07-13	It's historic and history ties community together. And as most historic bldgs are, it's cool looking at the very least!
Jodi gragg	tacoma, WA	2017-07-14	More development would increase traffic and increase the need for parking that is already limited. Keep unique--we do not have to become another Seattle.
Bea Christophersen	Tacoma, WA	2017-07-14	The North End is the only corner of the city without a Community Center. MUCs are springing up all over Proctor without anywhere for the community to "commune" together. Cushman is the ideal place for a park/playground with a bldg for classes, meetings, entertainment, and possibly a concession stand (in the summer to get an ice cream cone, take to a park bench under a tree and eat while watching the children play). Now that's LIVING in Tacoma!
Jon Howland	Seattle, WA	2017-07-14	Why would we trade our history for a buck?
Patrick Sullivan	Auburn, WA	2017-07-14	Its the most gorgeous building on the North End.
James Cornelius	Tacoma, WA	2017-07-14	Getting sick of apartments being the only economic development in Tacoma.
Marsha Cunningham	Tacoms, WA	2017-07-15	This should be saved and the land used for something for the community.
Carolyn Marie Bruno Yabui	Tacoma, WA	2017-07-15	Love this old building!

Name	Location	Date	Comment
Jordan Woolston	Tacoma, WA	2017-07-15	History matters
Eddie Carpenter	Tacoma, WA	2017-07-15	I live adjacent and will be heavily impacted by the outcome.
Nathan Fiedler	Tacoma, WA	2017-07-16	There are plenty of other opportunities for development to happen on the north end but there is so little open space for the community benefit.
Earla Reed	Tacoma, WA	2017-07-18	I'd like to see the building preserved & used for the community.

Name	Location	Date	Comment
Jim Merritt	Tacoma, WA	2017-07-20	I support keeping the substation as a community asset! Thank you to those who put this petition together.
Joseph Tieger	PORT TOBACCO, MD	2017-07-21	The Cushman and Adams substations and the surrounding property are important to the history of Tacoma, and a one-time opportunity to provide for a place for community activities and recreation. The North End does not have a community center and with increasing population needs more recreational space.
Natalie LaBerge	Tacoma, WA	2017-07-21	I want this beautiful building preserved and I want more community space in the North End.
Patricia Savage	Seoul, South Korea	2017-07-23	This structure is a landmark in the northend. It is also a remarkably strong piece of architecture that is art in itself.
Rob Jensen	Tacoma, WA	2017-08-03	What a great opportunity to create a sense of community, a park, a place for the arts. Let's preserve it!
Ellen Cohen	Tacoma, WA	2017-08-06	An architectural gem in the North End should be repurposed for the benefit of the citizens of Tacoma, not for a profit making developer
Patricia Savage	Seoul, South Korea	2017-09-03	The Station is a piece of art, in my estimation. While it no longer functions as a Station it does, however, function as a piece of history, building of beauty and iconic spot in the Northend.
Deborah Hill	Tacoma, WA	2017-09-13	This is a public building and absolutely should remain so. The people of Tacoma built this and should be able to enjoy it forever.
Claudia Riedener	Tacoma, WA	2017-09-13	The people paid for the substation. It belongs to the people of Tacoma.
Celeste Sullin Burris	Tacoma, WA	2017-09-14	Tacoma deserves nice things! Contact your City Council member.
Ronald Babb	Tacoma, WA	2017-10-03	This is a beautiful building and needs a new purpose. It would make an amazing brew pub\\restaurant. Please don't allow the bastard developers take all that is good about Tacoma away from us. We don't need more ugly, 5 story tenement apartment complexes. Proctor is being destroyed by them already!!
Kyle Schneidmiller	Tacoma, WA	2017-10-04	Kyle schneidmiller
