

# Tacoma Link Expansion

City of Tacoma  
Public Works Department

City Council  
February 4, 2014

# Route Alignment Overview

# Public Outreach

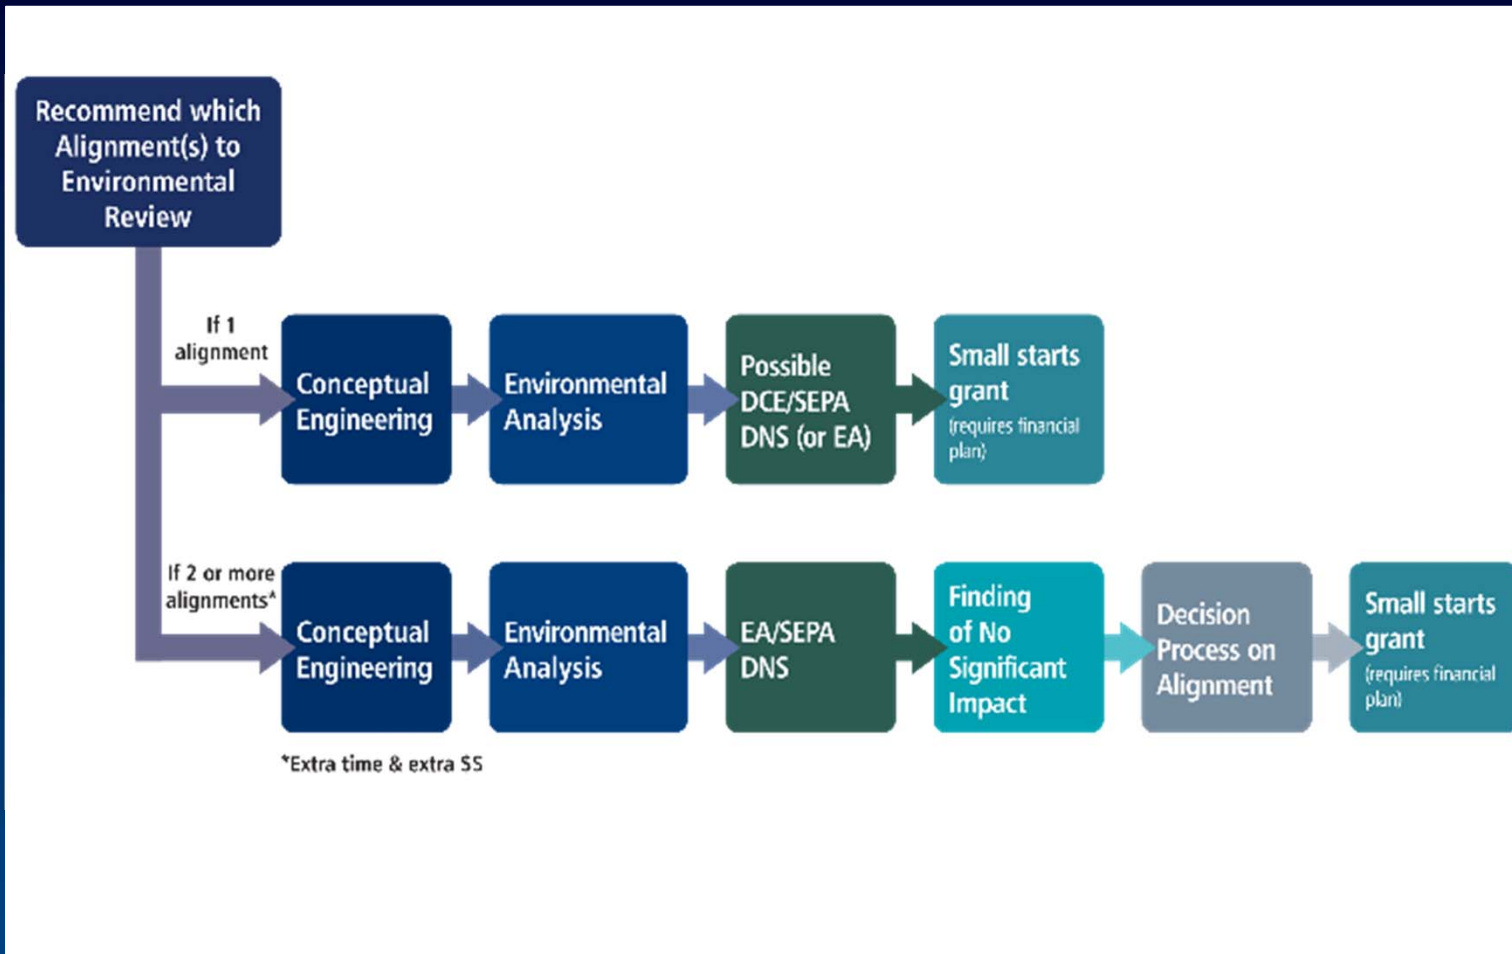

## Stakeholder Roundtable

- A1, A2, B1 – Received the most support
- A2a, A3, A3a, B2 – Remove as alignment options

## Public Comments

- A1 - Received the most positive comments
- A2 - More positive than negative comments
- A2a, A3, A3a - More negative than positive comments
- B1 - More Positive than negative comments
- B2 - Mixed Views

# Environmental Review

# One Alignment vs. More than One

## One Alignment

- Saves time and money
- Simpler environmental process and review
- Less design work

## More than One Alignment

- Increased time and costs
- Grant Funding Cycles may be missed
- May be necessary if alignment selection becomes controversial
- Value added if additional technical environmental analysis and further conceptual design will assist in making decision
