

### City of Tacoma

# **City Council Action Memorandum**

**TO:** Elizabeth Pauli, City Manager **FROM:** Council Member Olgy Diaz

**COPY:** Mayor, City Council, and City Clerk

SUBJECT: Resolution - Allocating \$10,000 in contingency funds to the Tacoma Tree Foundation to

assist in purchasing operational equipment - September 26, 2023

**DATE:** September 20, 2023

#### **SUMMARY AND PURPOSE:**

A resolution authorizing the use of \$10,000 in Council Contingency Funds to assist the Tacoma Tree Foundation in purchasing operational equipment for the purpose of tree planting and maintenance in the City of Tacoma. [Council Member Diaz]

### **COUNCIL SPONSORS:**

Deputy Mayor Walker, City Council Member Diaz, and City Council Member Ushka

#### **BACKGROUND:**

### The Council Member's Recommendation is Based On:

The Tacoma Tree Foundation has launched a campaign to raise \$25,000 to purchase a truck. This resolution would provide \$10,000 from Council Contingency Funds for this campaign.

This contingency fund allocation invests long-term in our tree canopy. Over the past five years, the Tacoma Tree Foundation has distributed 10,000 young trees by borrowing vehicles from their partners and using their personal cars. Their goal, pending availability and affordability, is to purchase a hybrid or electric flatbed truck. This would be used along with other infrastructure. They will need a water trailer to water trees, safety equipment to keep trees and neighbors safe, and to plan for insurance and maintenance costs to keep trucking trees for at least another five years. Once planted, from June to October, trees need 15-20 gallons of water a week, and their growth and health must be monitored year-round. This infrastructure will support the work of tree planting and ongoing tree maintenance.

While staff estimate that a hybrid small pickup truck traveling 5000 miles a year in town would emit approximately 1 metric ton of greenhouse gases a year, this green house emissions is offset by the work of the Tacoma Tree Foundation. During one year, a mature tree will absorb more than 48 pounds of carbon dioxide from the atmosphere and release oxygen in exchange. Last year, the Tacoma Tree Foundation planted over 2200 trees in the Tacoma area across all their programs.

## **COMMUNITY ENGAGEMENT/ CUSTOMER RESEARCH:**

The City of Tacoma created the 2030 Tacoma Climate Action Plan (CAP). Creation of this plan centered frontline communities' priorities, and Tacoma's new plan invests in both climate action and environmental justice. As we plan for our collective climate future, the City of Tacoma needs to hear continually from communities that are historically underrepresented, underserved, made vulnerable communities, or expected to experience the first or worst impacts of climate change. CAP includes a number of actions related to tree planting and maintenance, which would be supported with this funding request. The City also utilizes the Urban Forest Management Plan, which was adopted by Council Resolution December 2019 to support our goal of a healthy, thriving, equitable tree canopy throughout all of Tacoma, which a specific emphasis on community engagement, facilitating relationships with local partners, and environmental justice. This was the foundational policy that led to the Council passing funding for the Community Tree Program.

### City of Tacoma

## **City Council Action Memorandum**

### **2025 STRATEGIC PRIORITIES:**

# Equity and Accessibility: (Mandatory)

Tree canopy coverage is critical to reducing the urban heat island effect. In addition to Tacoma's Tree Canopy being disproportionately low in the Puget Sound Region, the analysis further recognizes that within the City of Tacoma, tree canopy is not distributed evenly, with some census blocks experiencing as low as 3% tree canopy cover, whole others have as high as 64%. In Tacoma, our analysis found that urban heat islands increase maximum temperatures by as much as 6.2 degrees F above the local baseline. Combined with regional climatic effects, neighborhoods in Central and South Tacoma may be as much as 14 degrees F hotter than neighborhoods in North Tacoma. 11,980 people live in neighborhoods where maximum temperature exceed the 90th percentile and where average per capita incomes are less than 200% the federal poverty level. Every additional degree carries significant public health costs.

# **Livability:** *Equity Index Score*: Low Opportunity

Improve access and proximity by residents to diverse income levels and race/ethnicity to community facilities, services, infrastructure, and employment.

Improve health outcomes and reduce disparities, in alignment with the community health needs assessment and CHIP, for all Tacoma residents

Increase positive public perception of safety and overall quality of life.

How does your policy, program, or service help or harm the health of the natural environment? (e.g. reduction in carbon emissions, open space conditions, sustainability, clean air, water and soil, and noise and light pollution).

### Explain how your legislation will affect the selected indicator(s).

The Tacoma Tree Foundation won a competitive bidding process to run the City's Urban Forestry Program's Community Tree Program. The Community Tree Program uses the City's Equity Index to direct resources into the lowest opportunity neighborhoods, many of which have less than half the tree canopy coverage of higher opportunity neighborhoods. In this way, the Community Tree Program has begun delivering upon the City's goals around climate resiliency and equity. The Tacoma Tree Foundation's goal is to grow a fair urban forest, one where residents of historically underserved neighborhoods have access to clean air, a cool shade, health and wellbeing, and where toxic stormwater runoff does not pollute our watershed. To make this possible, they need to do more than plant thousands more trees—they must also care for them year-round. This operational equipment is critical infrastructure to accomplish this goal and an investment in the health and future of neighborhoods with low tree equity.

#### **ALTERNATIVES:**

E		
Alternative(s)	Positive Impact(s)	Negative Impact(s)
1. Provide less or no funding.	Preserve Council resources for	Do not support critical
	other priorities.	infrastructure investments in
		supporting our tree canopy.
2. Provide more funding.	Increase Tacoma Tree	Reduce Council resources for
	Foundation's capacity to	other priorities, and does not
	purchase infrastructure to plant	acknowledge there is community
	and maintain trees.	support to fund this campaign.

## **EVALUATION AND FOLLOW UP:**

The Tacoma Tree Foundation provides annual reports for the Tacoma Tree Program, which will highlight the work this operational equipment is used for.

### SPONSOR RECOMMENDATION:

Sponsors recommend passing this contingency fund request in order to support work to boost our tree canopy across the City.

# **City of Tacoma**

# **City Council Action Memorandum**

### **FISCAL IMPACT:**

Fund Number & Name	Cost Object (cc/wbs/order)	Cost Element	Total Amount
1.1030- Council Contingency Fund	660000		\$10,000
2.			
TOTAL			\$10,000

What Funding is being used to support the expense?

Are the expenditures and revenues planned and budgeted in this biennium's current budget? No, Please Explain Below

The Council Contingency Fund provides an established amount of funding each year for unbudgeted Council sponsored initiatives.

Are there financial costs or other impacts of not implementing the legislation? No

Will the legislation have an ongoing/recurring fiscal impact? No

Will the legislation change the City's FTE/personnel counts? No
