SUBJECT: Ordinance - 2019-2020 Biennium-End Budget Modification - December 1, 2020
DATE: November 16, 2020

SUMMARY AND PURPOSE:

Modifying the 2019-2020 Biennial Budget to appropriate funds for additional changes in transfers and other budget adjustments as outlined in the attached exhibits as well as appropriating additional estimated revenues.

BACKGROUND:

At the end of each biennium, it is necessary for City staff to obtain from City Council authority to perform various financial transactions prior to the close of the biennium to ensure that fund accounting meets GAAP (Generally Accepted Accounting Principles) and the City’s financial policies. Modifications generally recognize new revenues, budget for resolutions already passed by the City Council, adjust for changes that have occurred over the course of the biennium, and make needed corrections to the budget. The adjustments outlined in the attached exhibits will increase expenditure budgets (appropriations) and revenues to align them with updated conditions and projections.

COMMUNITY ENGAGEMENT/ CUSTOMER RESEARCH:

The Office of Management and Budget worked in partnership with departments to evaluate funds that would need changes in appropriation level to align with conditions and projections.

2025 STRATEGIC PRIORITIES:

Equity and Accessibility: (Mandatory)

The biennium-end modification gives legal spending authority to City Departments in order to support all City Council Priorities.

ALTERNATIVES:

City Council could choose not to appropriate the requested adjustments. This could result in the City not making required adjustments to meet GAAP principles and the City’s Financial Policies.

Alternative(s)	Positive Impact(s)	Negative Impact(s)
1. Do not appropriate requested adjustments	None	The City would be out of compliance with GAAP principals and City Financial Policies.
