13.05.020 Notice process.

A. Purpose. The purpose of this section is to provide notice requirements for land use applications.

B. Administrative Determination.

1. A notice of application is not required for Administrative Determinations. Examples of Administrative Determinations are minor variances, temporary homeless camp permits, reasonable accommodation requests, review of non-conforming rights, zoning verification requests, and information requests.

2. Determinations of the Director shall be mailed to the applicant and the property owner (if different than the applicant) by first class mail.

3. At the discretion of the Director, notice of the Determination and/or summary of Determination may be provided to other qualified or interested parties.

* * *

G. Public Comment Provisions. Parties receiving notice of application shall be given the opportunity to comment in writing to the department. A "public meeting" to obtain information, as defined in Section 13.05.005, may be held on applications which require public notification under Process II when:

1. The Director determines that the proposed project is of broad public significance; or

2. The neighborhood council in the area of the proposed project requests a "public meeting"; or

3. The owners of five or more parcels entitled to notice for the application make a written request for a meeting; or

4. The applicant has requested a "public meeting."

Requests for a meeting must be made in writing and must be in the Planning and Development Services office within the comment period identified in the notice. One public meeting shall be held for a permit request regardless of the number of public meeting requests received. If a public meeting is held, the public comment period shall be extended 7 days beyond and including the date of the public meeting. Notice of the "public meeting" shall be mailed at least 14 days prior to the meeting to all parties entitled to original notice, and shall specify the extended public comment period; however, if the Director has determined that the proposed project is of broad public significance, or if the applicant requests a meeting, notification of a public meeting may be made with the notice of application, and shall allow the standard 30-day public comment period.

The comment period for permit type is identified in Section 13.05.020.H. When a proposal requires an environmental determination under Chapter 13.12, the notice shall include the time within which comments will be accepted prior to making a threshold determination of environmental significance or non-significance.

H. Notice and Comment Period for Specified Permit Applications. Table H specifies how to notify, the distance required, the comment period allowed, expiration of permits, and who has authority for the decision to be made on the application.

3. Temporary structure standards.

a. Temporary housing.

(1) Such use shall be placed on a lot, tract, or parcel of land upon which a main building is being in fact constructed. The applicant shall have a valid building permit approved by Planning and Development Services;

(2) Such uses are of a temporary nature not involving permanent installations, including structures and utilities;

(4) That conformance with all applicable health, sanitary, and fire regulations occasioned by the parking and occupancy of said house trailer or mobile home shall be observed.

(5) The temporary housing shall be removed within 30 days after final inspection of the project, or within one year from the date the unit is first moved to the site, whichever may occur sooner.

b. Temporary office space.

(1) Such use shall be in accordance with the use regulations of the zoning district within which the temporary office is located.

(2) Such use is appropriate due to the construction or reconstruction of a main building or the temporary nature of the use.

(3) Such use is of a temporary nature not involving permanent installations, including structures, utilities, and other improvements, unless such improvements are to be used in conjunction with a permanent structure, plans for which have been approved by Planning and Development Services. This provision shall not be construed to prohibit the installation of utilities necessary to serve the temporary use or the requiring of improvements necessary to eliminate or mitigate nuisances or adverse environmental impacts resulting from the temporary use.

(4) Such a temporary building shall be located at least 25 feet away from any existing structure or structures under construction unless it can be demonstrated that a lesser distance will be adequate to safeguard adjacent properties and provide a safe distance from any construction occurring on the site.

(5) Such temporary building shall not be required to comply with the design standards found in Section 13.06.501.

(6) That conformance with all applicable health, sanitary, and fire regulations occasioned by the parking and occupancy of said temporary building shall be observed.

(7) The temporary office shall be removed within 30 days after final inspection of the project, or within one year from the date the unit is first moved to the site, whichever may occur sooner.

Units shall not block, impair, or otherwise unduly inconvenience pedestrian or vehicular traffic patterns, emergency access, access points to the site, parking lots, or adjacent uses.

(5) Such use is of a temporary nature not involving permanent installations, including structures, utilities, and other improvements, unless such improvements are to be used in conjunction with a permanent structure, plans for which have been approved by Planning and Development Services. 5 welfare of adjacent properties or residences or the general public.

4. Temporary Homeless Camps.

5 a. Purpose. In recognition of the need for temporary housing for homeless persons, it is the purpose of
6 this section to allow sponsoring religious organizations to use property owned or controlled by them for
7 temporary homeless camps, while preventing harmful effects associated with such uses, including the use
8 of open flames, the possibility of impediments to emergency services, the possibility of environmental
9 degradation, the use of improper sanitary facilities, and the possibility of any other factors that would be
10 considered a nuisance under applicable laws.

11 b. Application. In order to allow sponsoring religious organizations to establish a temporary homeless
12 camp on qualifying property, a permit must be obtained from Planning and Development Services in
13 accordance with TMC 13.05, Land Use Permit Procedures, and the following:

17 that justify the requirements.

18 (2) An application for a temporary homeless camp shall include the following:

19 (a) The dates of the start and termination of the temporary homeless camp;

20 (b) The maximum number of residents proposed;

21 (c) The location, including parcel number(s) and address(es);

22 (d) The names of the managing agency or manager and sponsor;

23 (e) A site plan showing the following shall be prepared and reviewed by staff, which will make
24 recommendations for best practices, including Crime Prevention through Environmental Design (“CPTED”)
25 principles:

(ii) Property dimensions;

(iii) Location and type of fencing/screening (must be a minimum of ten feet from property lines);

(iv) Location of all support tents/structures (administrative, security, kitchen, and dining areas);

(v) Method of providing and location of potable water;

(vi) Method of providing and location of waste receptacles;

(vii) Location of required sanitary stations (latrines, showers, hygiene, hand washing stations);

(viii) Location of vehicular access and parking;

1 (ix) Location of tents and dwellings for each person (must meet Tacoma-Pierce County Health Department requirements);

2 (x) Entry/exit control points;

3 (xi) Internal pathways, and access routes for emergency services.

4 (f) A statement from the sponsoring religious organization regarding its commitment to maintain liability insurance in types and amounts sufficient to cover the liability exposures inherent in the permitted activity during the existence of any sponsored temporary homeless camp;

5 c. Safety and health requirements. A temporary homeless camp shall be established in accordance with the following standards:

6 (1) No more than 100 residents shall be allowed per camp location. The City may further limit the number of residents as site conditions dictate.

7 (2) A minimum of 7,500 square feet of site area shall be required for camps of up to 50 people. The minimum site area may be proportionally reduced if adjacent existing buildings are used for support facilities such as kitchen, dining hall, showers, and latrines.

8 (3) For a camp of more than 50 residents, the minimum 7,500 square-foot camp area shall be increased by 150 square feet for each additional resident, up to a total of 100 residents.

9 (4) The maximum duration of a homeless camp shall be 93 consecutive days. Gravel or paved camp sites and sites not zoned for residential use may extend the maximum duration of the camp to 123 consecutive days.

10 (a) A one-time extension of up to 40 days may be granted by the Director if unforeseen problems arise regarding camp relocation. An extension must be requested before the last 30 days of the temporary permit and will not be granted if any violation of the camp permit has occurred.

11 (5) A camp may only return to the same church-owned site after two years has lapsed since the start date of the previous camp. Gravel or paved camp sites and sites not zoned for residential use may decrease the relocation time to 18 months from the start date of the previous camp.

12 (6) In no event shall more than two homeless camp sites be permitted within the City at any given time.

13 (7) The encampment shall be enclosed on all sides with a minimum six-foot tall, site-obscuring fence.

14 (8) Permanent structures are prohibited from being constructed within the camp.

15 (9) Temporary homeless camps are prohibited in Shoreline Districts, critical areas, and their buffers.

16 (10) The sponsoring religious organization shall work with Neighborhood and Community Services and other agencies to find more permanent housing solutions for the inhabitants of the camp during its operation.

17 (11) One security/office/operations tent or structure shall be provided for the camp manager. The manager must be on site at all times. Persons who are acting as the on-site manager must be awake while on shift to monitor the security of the camp and be ready and able to alert police and/or other emergency responders if the need arises.

18 (12) The minimum age for camp inhabitants is 18 years of age.

19 (13) Each resident shall be pre-screened for warrants and a background check shall be completed by the sponsor religious organization. No sex offenders will be permitted as camp residents.

(14) The temporary homeless camp must be located within one-quarter mile of a bus route that is in service seven days per week.

(15) The following facilities and provisions must be made available on-site and approved for adequacy and location by the Tacoma-Pierce County Health Department prior to occupancy:

(a) Potable water as approved or provided by local utilities. Estimated usage is four to five gallons per day, per resident.
