A. Utilization Goals.

1. All Contractors constructing Civil Projects or Building Projects, and all Service Providers involved with the construction of a Public Work or Improvement, shall ensure that ~~the lesser of at least 15 percent of the total Labor Hours actually worked on the Project, or 15 percent of the Estimated Labor Hours, are performed by persons having their residence within the boundaries of the City of Tacoma-Economically Distressed ZIP Codes, whether or not any such person is an Apprentice, or by Apprentices who are residents of Pierce County, unless as adjusted per subsection B below.~~

a. The thresholds for this section shall be \$250,000.00 for Civil Projects and \$750,000.00 for Building Projects.

2. ~~Twenty five percent (25%) of the Labor Hours or Estimated Labor Hours identified as the LEAP Utilization Goal above shall have work performed by a CEZ Resident; provided, however, that the Utilization Goal Estimated Labor Hours are subject to adjustment as provided in subsection B below.~~

Fifteen percent (15%) of the Total Labor Hours on contracts above one-million dollars (\$1,000,000.00) shall have work performed by Apprentices who are residents of the Tacoma Public Utilities Service Area consistent with RCW 39.04.320(1)(a), subject to waiver based on exceptions as specified in RCW 39.04.320(2)(a), (b), and (c).

3. ~~If the Project is located within the Tacoma Power Hydro Project Areas, then 25 percent of the Labor Hours or Estimated Labor Hours identified as the LEAP Utilization Goal above in subsection A.1 or A.2 may be work performed by a Resident of the Tacoma Power Hydro Project Areas in which the Building Project, Civil Project, or Service Contract is located; provided however, that the Utilization Goal Estimated Labor Hours are subject to adjustment as provided in this section.~~

Labor Hours performed by non-residents of the State of Washington will be deducted from a project’s total Labor Hours for purposes of determining compliance with the requirements of this chapter.

4. ~~If the Project is within the Tacoma Water Green River Headworks and Watershed Area, then the 25 percent requirement of the Labor Hours or Estimated Labor Hours identified in subsection A.1 or A.2 above as the LEAP Utilization Goal may be work performed by Apprentices who reside in King County or by a Resident of the Duwamish and White Center CEZ or of Tacoma Water Green River Headworks and Watershed Area in which the~~

~~Building Project, Civil Project, or Service Contract is located; provided however, that the Utilization Goal Estimated Labor Hours are subject to adjustment as provided in this section.~~

5. All Contractors and Service Providers shall submit a LEAP Utilization Plan as provided for in the regulations adopted under this chapter, and shall meet with the LEAP Coordinator to review said Plan prior to being issued a Notice to Proceed. Failure to submit a LEAP Utilization Plan may be grounds for the City to withhold remittance of a progress payment until such Plan is received from the responsible Contractor or Provider. A meeting with the LEAP Coordinator prior to issuance of a Notice to Proceed shall be excused only when the LEAP Coordinator is unavailable to meet prior to the scheduled date for issuance of the Notice to Proceed and the Contractor and the LEAP Coordinator have otherwise scheduled a meeting for the coordinator to review the Contractor's or Provider's plan.

The Contractor or Service Provider shall be responsible for meeting the LEAP utilization goal requirements of the contract, including all amendments and change orders thereto, and shall be responsible for overall compliance for all hours worked by Subcontractors. To the extent possible, the Contractor or Service Provider shall recruit Apprentices from multiple trades or crafts.

B. Adjustments.

~~Contractors and Service Providers may achieve compliance with their LEAP Utilization Goal obligation through any combination of the following:~~

~~1. The number of hours worked by a Resident of the CEZ or Seattle's Duwamish and White Center CEZ shall be multiplied by two;~~

~~2. The number of hours worked by a Tacoma Youth, Tacoma Veteran or Tacoma Apprentice shall be multiplied by 1.5;~~

~~3. The number of hours worked by a Resident of Tacoma, Pierce County Youth, Pierce County Veteran or a Pierce or King County Apprentice shall be multiplied by 1;~~

~~4. The number of hours worked by a Tacoma Power Hydro Project Areas Resident shall be multiplied by 1.~~

~~5. Should the Contractor or Service Provider be unable to satisfy the sub-utilization goal requirement that 25 percent of the utilization goal hours be worked by CEZ Residents, the Contractor or Service Provider shall cure such deficiency by achieving a 2-for-1 ratio of hours worked by a Pierce County Apprentice, Pierce County Youth, Pierce County Veteran, Tacoma Power Hydro Project Areas Resident, or Resident of Tacoma for every unmet CEZ Resident labor hour until the CEZ deficiency is met. For example, if a Contractor has a total LEAP utilization goal of 20 hours, but is only able to achieve 4 of the 5 sub-goal labor hours, then the Contractor must achieve a total of 17 non-CEZ Resident labor hours to satisfy the deficiency (15 non-sub-goal hours plus 2 labor hours for the 1 missed sub-goal hour).~~

~~6. For projects in the Tacoma Water Green River Headworks and Watershed Area, should the Contractor or Service Provider be unable to satisfy the subutilization goal requirement that 25 percent of the utilization goal hours be worked by CEZ Residents, the Contractor or Service Provider shall cure such deficiency by achieving a 2-for-1 ratio of hours worked by a King County Apprentice or Duwamish and White Center CEZ resident for every unmet CEZ Resident labor hour until the deficiency is met.~~

~~C. Failure to Meet Utilization Goal.~~

~~1. Contracts for the construction of Building projects or Civil pProjects and Service Contracts shall provide that Contractors or Service Providers failing to meet the LEAP utilization goals shall be assessed an amount for each hour that is not achieved. The amount per hour shall be based on the extent the Contractor or Service Provider met its goal. The amount per hour that shall be assessed shall be as follows:~~

Percent of Goal Met	Assessment per unmet hour
100%	\$ 0.00
90% - 99%	\$ 2.00
75% to 89%	\$ 3.50
50% to 74%	\$ 5.00
1% to 49%	\$ 7.50
0%	\$10.00

When determining the percent of goal that is met, all rounding shall be down to the nearest whole percent. No penalty shall be waived by the City unless it is determined by the Director to be in the best interests of the City, which determination shall be made after consultation with the LEAP Coordinator.

2. Deposit of Assessments. All assessments imposed pursuant to this section shall be deposited into a separate account and utilized to support the City's pre-apprenticeship and training program. The policies and regulations adopted by the City Manager and Director of Utilities pursuant to this chapter shall address issues pertaining to a Contractor's existing workforce. Contributions need not be made for Labor Hours that have been adjusted in accordance with Section 1.90.040(E).

DC. LEAP Reports. Notwithstanding the provisions of TMC 1.90.100, the Director shall, not less than annually, publish a LEAP report setting forth Contractor compliance with this chapter. Said report shall include information on all contracts and all Contractors to which this chapter applies, and shall detail the level and nature of LEAP participation by contract and by Contractor. The Director's LEAP report may include such other information as may be helpful to assuring fair and accurate representation of the contracts, Contractors or projects covered in the report. The Director's LEAP reports may be considered by the Board of Contracts and Awards in its determinations as to bidder responsibility.

ED. LEAP Goal Adjustments.

1. LEAP utilization goals may be adjusted prior to bid opening and/or as a result of a contract amendment or change order on a Building Project, Civil Project, or Service Contract.

a. If LEAP utilization goals are adjusted prior to bid opening, they shall be set forth in the bid or Request For Proposal advertisement and specification documents or in an addendum timely provided to prospective bidders, provided that such adjustment shall be based upon a finding by the Project Engineer that the reasonable and necessary requirements of the contract render LEAP utilization unfeasible at the required levels. The Director shall concur with the Project Engineer's finding, provided that should the Project Engineer and the Director fail to reach agreement on the Project Engineer's finding, then in that circumstance the matter shall be referred to the City Manager or the Director of Utilities, as appropriate, for ultimate resolution. Notwithstanding any other provision of this chapter to the contrary, the decision of the City Manager or the Director of Utilities with regard to LEAP goal adjustment may not be appealed.

b. If LEAP utilization goals are adjusted due to contract amendment or change order, the amount of adjustment shall be consistent with the utilization goals set forth in this chapter and shall be determined pursuant to regulations adopted pursuant to this chapter for administration of LEAP utilization goal adjustments.

2. The methodology of determining the appropriate adjustments to LEAP utilization goals shall be determined in consultation with the LEAP Advisory Committee, established pursuant to this ordinance for so long as the LEAP Advisory Committee remains in existence.

3. LEAP utilization goals shall not apply to those portions of a project that are funded by sources other than (a) City funds, or (b) funds which the City expends or administers in accordance with the terms of a grant to the City, provided that the Project Engineer shall notify the Director of such non-application prior to bid advertisement. For the purposes of this paragraph, credits extended by another entity for the purpose of providing project funding shall not be considered to be City funds.
