MANAGEMENT ANALYSIS

The Self Insurance fund is reporting a net gain of \$466,000 year-to-date 2016 compared to a net gain of \$182,000 recorded for the same time period in 2015. Total revenues increased \$28,000 while total expenses decreased \$256,000 year-to-date.

Revenues

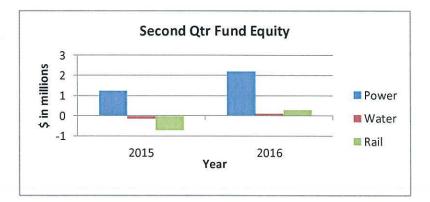

Self Insurance fund revenues are contributions from the Power, Water and Rail divisions and the interest earned. Total revenues at the end of the second quarter of 2016 and 2015 were \$672,000 and \$643,000 respectively.

Expenses

Self Insurance fund expenses include claims and handling expenses paid during the quarter, adjustments to accrued claims and administrative expenses. Support Services claims and handling expenses are allocated to Power and Water only and based on each fund's percentage of combined claims and handling expenses for the year to date. Administrative expenses are allocated to Power, Water and Rail funds based on each fund's percentage of total claims paid.

Total expenses at the end of the second quarter of 2016 and 2015 were \$205,000 and \$462,000 respectively. The change in expenses from year to year is primarily due to adjustments in expected future developments accrued by the Fund. Negative claims expense is generally the result of adjustments to the liability where expected claims were accrued in one quarter and subsequently denied or revised the next quarter.

The Fund's equity was \$2.6 million and \$415,000 through June of 2016 and 2015 respectively. The following graph provides a visual presentation as to how the Fund's equity is shared.
