FUTURE PROGRAM CONSIDERATIONS

PARKLET LOCATION

- Is the parklet sited in a feasible location that would successfully activate the public right-of-way without negatively impacting businesses, residents, and other users of the street?
- PROGRAM AND DESIGN APPROACH
 - Would the proposed program and design for the parklet enable it to provide a valuable and attractive public space?

 Would the proposed parklet bring a positive community amenity to an underserved area of the city? Would it seem open and welcoming to all?

- COMMUNITY SUPPORT
 - Are neighborhood businesses, residents, and/or community groups supportive of the proposal?
- PARKLET HOST
 - Does the host demonstrate an understanding of the intent and function of parklets?
 Do they have a plan for managing and maintaining their parklet?

••• FUTURE PROGRAM CONSIDERA

- Accessibility
 - Slopes, spacing, seating area
- Parking demands
 - Load zones (trucks and passenger)
- Cost to construct
 - Designer & Builder
- Competing interests
 - Micromobility parking, bike facilities (bike lanes), wide sidewalks, urban forestry, art, utilities
- Staffing
 - Outreach, application review, inspection, and maintenance
