OFFICE OF THE HEARING EXAMINER  
CITY OF TACOMA  
REPORT AND RECOMMENDATION TO THE CITY COUNCIL  
PETITIONER: Robert H. Cooper FILE NO: 124.1119

SUMMARY OF REQUEST:

A petition to vacate the easterly 17 feet of North Adams Street northerly of North 27<sup>th</sup> Street.

RECOMMENDATION OF THE HEARING EXAMINER:

The request is hereby recommended for approval, subject to conditions.

PUBLIC HEARING:

After reviewing the report of the General Services Department, Asset Management Division, examining available information on file with the application, and visiting the subject site and the surrounding area, the Hearing Examiner conducted a public hearing on the application on June 20, 2000.

FINDINGS, CONCLUSIONS, AND RECOMMENDATION:

FINDINGS:

1. Robert H. Cooper (hereinafter "petitioner") is requesting the vacation of the easterly 17 feet of North Adams Street northerly of North 27<sup>th</sup> Street and more particularly described as follows:

The easterly 17 feet of Adams Street lying adjacent to and abutting Block 13 AMENDED MAP OF SECOND SCHOOL LAND ADDITION TO THE CITY OF TACOMA, according to the plat thereof recorded in Volume 7 of plats at page 76, records of Pierce County, Washington.

2. The petitioner owns and operates an auto body repair business that is located on the east side of North Adams Street north of North 27<sup>th</sup> Street. Currently, the portion of the right-of-way here sought to be vacated is a paved area beyond the edge of the improved portion of Adams Street, which is used by the petitioner to park vehicles which are being repaired at petitioner's facility. The petitioner intends to modernize and upgrade his building to make it more efficient in terms of operation and to enhance its appearance. The vacation of the 17-foot strip of Adams Street right-of-way abutting petitioner's property is necessary to provide sufficient land area for the building, remodeling.

3. The vacation petition has been signed by the owners of two properties abutting the right-of-way proposed to be vacated.

4. The portion of North Adams Street, which is the subject of these proceedings, was dedicated for public street purposes in July 1903 when the SECOND SCHOOL LAND plat was filed for record.

5. Adams Street north of North 27<sup>th</sup> Street is paved and has a right-of-way width of 80 feet. This right-of-way compares to a typical non-arterial right-of-way width of 60 feet. Vacation of the requested 17 feet of right-of-way would still leave 63 feet of right-of-way width. Adams Street dead ends at an improved east-west alley located one-half block north of North 27<sup>th</sup> Street. Thus, Adams Street only provides access to the two abutting properties and the alley to the north.

6. The improved or paved portion of Adams Street is located on the east portion of the right-of-way. Typically, street improvements are centered within the right-of-way. Thus, it is likely that, if any widening of Adams Street was to occur in the future, it would be done within the westerly portion of the right-of-way.

7. Adams Street is not a major or arterial street as depicted on the City's Major Street Plan and is not even a through street. In accordance with long-standing City policy and practice, any improvements to non-arterial streets are accomplished at the instigation and expense of the abutting and nearby property owners. Thus, the City has no plans to widen or otherwise improve Adams Street north of North 27th Street.

2

8. A post office facility is situated on the west side of Adams Street north of North 27th Street. On-street, perpendicular parking serving the post office is located within the westerly portion of the Adams Street right-of-way. At times, this area is congested as a result of the volume of persons using the postal facility. Moreover, this area is located on the northerly edge of the Proctor Street business district. On-street parking on North 27th and other area streets and traffic associated with nearby businesses and an elementary school add to the traffic and parking congestion in the neighborhood.

9. There has been no showing that the vacation of the easterly 17 feet of Adams Street would, in any way, add to the congestion in the area or hinder any efforts to address such problems. The area sought to be vacated has not been used for on-street parking or other street purposes, and greater than a typical width non-arterial right-of-way would remain after vacation of the 17 feet requested here.

10. The petitioner's auto body repair business is a non-conforming use under applicable zoning regulations. See Exhibit 1, electronic mail memoranda between Bill Bailey and Bob Gower. A Special Development Permit would be required before the petitioner's development plans could proceed. Id. Issues relative to the impacts of the improvements proposed by the petitioner to his property would be evaluated and considered as a part of the special development permit review process. See Tacoma Municipal Code (hereinafter "TMC") 13.06.370.

11. Since the vacation involves right-of-way that has not been and is unlikely in the future to be used for street purposes, given the excess width of the Adams Street right-of-way and the fact that it is not a through street, the proposed vacation would not affect the street pattern in the area and the public need would not be adversely affected.

12. The public would benefit from the vacation of the subject right-of-way to the extent that it would return this long-unused street right-of-way to the tax rolls of Pierce County.

13. No abutting property would become landlocked or have its access substantially impaired as a result of the vacation of the subject right-of-way.

14. The right-of-way proposed for vacation does not abut upon nor is it adjacent to a body of water. Thus, the provisions of RCW 3 5.79.03 5 are not applicable.

15. The subject vacation request has been reviewed by a number of governmental agencies, including the City's Traffic Engineering Office, and utility providers. No adverse comments were received. Asset Management advises that pursuant to TMC 9.27.010 the petitioner is required to compensate the City in an amount equal to one-half appraised value of the vacated area to the Open Space Acquisition Fund and that an "in-lieu-of-assessment charge" must be paid by the petitioner for the vacated right-of-way.

16. The petitioner has not objected to the conditions or comments presented by the reviewing agencies and utility providers.

3

17. Appearing and testifying at hearing was an owner and resident of a home located east of petitioner's property. Said owner raised concerns regarding parking and traffic congestion in the area, particularly as such conditions relate to the postal facility located on the west side of Adams Street north of North 27th Street and suggested that the City should not vacate any street right-of-way in the area. It was acknowledged by the witness that his property does not abut Adams Street and that the vacation of the easterly 17 feet of Adams Street right-of-way would not substantially impair access to his property.

18. Pursuant to WAC 197-11-800(2)(h), the vacation of streets or roads is exempt from the threshold determination and Environmental Impact Statement requirements of RCW 43.21.C, the State Environmental Policy Act (SEPA).

19. All property owners of record and adjacent to the proposed vacation have been notified of the hearing date at least 30 days prior to the hearing, as required by 7MC 9.22.060.

20. The Asset Management Preliminary Report, as entered into this record as Exhibit 1, accurately describes the proposed project, general and specific facts about the site and area, and applicable codes. The report is incorporated herein by reference as though fully set forth.

21. Any conclusion hereinafter stated which may be deemed to be a finding herein is hereby adopted as such.

#### CONCLUSIONS:

1. The Hearing Examiner has jurisdiction over the parties and subject matter in this proceeding. See TMC 1.23.050A.5 and 9.22.

2. Petitions for the vacation of public right-of-way are reviewed for consistency with the following criteria:

1. The vacation will provide a public benefit, and/or will be for public purpose.
2. That the right-of-way vacation shall not adversely affect the street pattern or circulation of the immediate area or the community as a whole.
3. That the public need shall not be adversely affected.
4. That the right-of-way is not contemplated or needed for future public use.

4

5. That no abutting owner becomes land-locked or his access will not be substantially impaired; i.e., there must be an alternative mode of ingress and egress, even if less convenient.

6. That the vacation of right-of-way shall not be in violation of RCW 35.79.035.

7MC 9.22.070.

The petitioner must demonstrate by a preponderance of the evidence that its vacation request conforms to the foregoing criteria. See 7MC 1.23.070.

3. Proceedings involved in the consideration of petitions for the vacation of public street rights-of-way are quasi judicial in nature. *State v. City of Spokane*, 70 Wn.2d 207, 442 P.2d 790 (1967).

4. It has been a long-standing rule in Washington that only those property owners whose properties abut on the street or alley right-of-way sought to be vacated or who can show that their access would be substantially impaired have standing to challenge a proposed street vacation. *Greater Harbor 2, 000 v. Seattle*, 132 Wn.2d 267, 937 P.2d 1082 (1997); *State v. Wineberg*, 74 Wn.2d 372, 375, 444 P.2d 787 (1968); *Mackie v. Seattle*, 19 Wn. App. 464, 576 P.2d 414 (1978)- *Hoskins v. Kirkland*, 7 Wn. App. 957, 503 P.2d 11 17 (1972). To be considered an abutting owner, the vacation must be directly in front of his or her property. *State v. Wineberg* at 375; see also *Kemp v. Seattle*, 149 Wash. 197, 201, 270 Pac. 431 (1928) (when property abuts a street, the lot

line and street line are in common). The owner of the property east of the petitioner's property has not demonstrated standing to contest the vacation here being sought.

5. Findings have been entered, based on substantial evidence in the record, that support a conclusion that the vacation request conforms to applicable criteria for the granting of the same, provided the conditions recommended herein are imposed and complied with by the petitioner.

6. Accordingly, the requested street vacation should be granted subject to the following conditions and subject to the payment of one-half the appraised value charge required by 7MC 9.22.010:

SPECIAL CONDITIONS:

- A. An in-lieu-of-assessment charge shall be paid for the sanitary sewer.
- B. An easement shall be granted to Tacoma Power for the north 10 feet of the area to be vacated for existing electrical facilities on Adams Street.
