

WEEKLY REPORT TO THE CITY COUNCIL

October 9, 2025

Members of the City Council
City of Tacoma, Washington

Dear Mayor and Council Members:

ITEMS OF INTEREST

1. Council Member Hines provides the attached **Council Action Memorandum** requesting an Ordinance to amend Title 8 of the Municipal Code, relating to camping and storage of personal belongings on public property.
2. Tacoma Interim Police Chief Jackson provides the attached **Weekly Crime Report**.
3. Please see the attached City of Tacoma **Weekly Meeting Schedule**.
4. City Manager's Office Constituent Relations Analyst Karyssa Mathison provides the attached **Constituent Intake Report**.
5. City-funded Temporary and Emergency Shelter Performance: The City posts weekly information about its Temporary and Emergency Shelter locations including current census, number of available beds, and exits to housing. **This information can be found at: <https://cms.tacoma.gov/ncs/weeklydataupdate.pdf> and is updated weekly.**

Pierce County Human Services also uses the Homeless Management Information System to report daily availability throughout Pierce County. This information can be found at: <https://www.piercecountywa.gov/8220/Homeless-Emergency-Shelter-Availability> and shows the available beds open at shelters and is updated Monday - Friday by 10:00 a.m.

6. Encampment Outreach: For the week of **September 29 - October 3, 2025**, the HEAL team visited **36 locations**. This resulted in **71 (39 new, and 32 repeat)** individuals contacted and referred to community services; 5 individuals accepted shelter placement. This information can be found at: [HEAL Team Engagement Dashboard | Tacoma Open Data](#).
7. Amy Clancy, Media and Communications Director shares the "**Good News**" below.
 - Explore nature on a hike through one of Tacoma's beautiful parks with a friendly and knowledgeable Parks Tacoma guide! You can learn about birds, plant safety, and even bring your little one on most adventures. Learn more at: <https://www.parkstacoma.gov/park-guides/>.

- **I-705 Ramp Closure Update:** The southbound on-ramps from Stadium Way and Schuster Parkway to I-705 will remain closed approximately until early-November. What's being done: new cement concrete overlay, upgraded bridge deck expansion joints, a new crash attenuator for added safety, general ramp repairs and safety upgrades.
- **Walk and Roll to School Kits Available:** Our friends at Tacoma Mobility are offering free kits for schools who host Walk and Roll to School events in October. The kit has cool stickers, yard signs, and more. Register your event at least one week in advance to get your kit while supplies last at: tacoma.gov/walkandroll.
- Tacoma Environmental Services would like your **feedback on EnviroTalk**, the print newsletter that is distributed three times per year to single-family residents in Tacoma. Take the brief survey by October 31, 2025, to let them know how they can shape the newsletter to better serve you. More information can be found at: [EnviroTalk Newsletter | City of Tacoma](#).
- There's still time to sign up to participate for a day of environmental stewardship at **Green Tacoma Day!** On October 11, 2025, people from across Tacoma will come together at 13 different sites to participate in clean-up and restoration work. These events are open to all ages and skill levels. More information can be found at: [Green Tacoma Day - Annual Day of Service | City of Tacoma](#).
- **Tacoma Fire Dept:** It's time to tally how many incidents TFD responded to in September. Fires: 257, Medical: 3,384, Other: 633 Total calls in September: 4,274. Check it out at; <https://www.facebook.com/share/v/16WtLd5Psj/>
- **Tacoma Police Dept:** How many calls for service did we receive in September, check it out at; <https://www.facebook.com/share/v/1ANi5K18vz/>.
- **Pothole Palooza is underway!** Last week, Council Member Hines visited South 19th Street where the westbound curb lane was being replaced from Summit Avenue to South Pearl Street. On October 3, 2025, Council Member Sarah Rumbaugh joined the **Pothole Palooza** site on Norpoint Way NE / Point Woodworth, where the northbound curb lane is being replaced.

To see what else Street Operations and Phil the pothole are working on during Pothole Palooza, which lasts through October 13, 2025, visit tacoma.gov/potholes. You can report a pothole in your neighborhood through Tacoma FIRST 311 Customer Support Center by dialing 311 within Tacoma city limits, (253) 591-5000 from anywhere else, or by visiting tacoma.gov/311.

STUDY SESSION / WORK SESSION

8. **The City Council Study Session of Tuesday, October 14, 2025, will be conducted as a hybrid meeting.** This meeting can be attended in-person at the Tacoma Municipal Building, Council Chambers, located at 747 Market Street on the 1st floor or be heard by dialing (253) 215 – 8782 or through Zoom at: www.zoom.us/j/89496171192 and entering the meeting ID 894 9617 1192; passcode 89659 when prompted. This meeting will be broadcast on TV Tacoma.

The City Council Study Session discussion items will include; (1) **State and Federal Legislative Agenda**; (2) **University of Washington Street Vacation Wavier**; (3) **Interim City Manager Workplan Update**; (4) **Other Items of Interest: Larchmont Community Schoolyard Project & Amending Title 8 of the Tacoma Municipal Code, Relating to Camping and Storage of Personal Belongings on Public Property**; (5) **Committee Reports**; (6) **Agenda Review & City Manager's Weekly Report**; (7) **Executive Session – Pending and Potential Litigation**.

On our first agenda item, staff from the Government Relations department will provide a briefing on the **proposed state and federal general government policy positions and legislative priorities for the 2026 legislative session**.

On our second agenda item, staff from Public Works will provide a briefing on the **University of Washington street vacation waiver**.

On our third agenda item, Interim City Manager Hyun Kim provide the Mayor and Council an update of his **City Manager workplan**.

Under other items of interest, the following items will be discussed:

- **Council Action Memorandum** – Amending Title 8 of the Tacoma Municipal Code, Relating to Camping and Storage of Personal Belonging on Public Property **[Council Member Hines]**
- **Council Consideration Request** – A Resolution Authorizing a Council Contingency fund expenditure of \$32,380.44 in support of the Larchmont Community Schoolyard Project **[Council Member Bushnell]**

COMMITTEE OF THE WHOLE

9. **The City Council Committee of the Whole on Tuesday, October 14, 2025, will be conducted as a hybrid meeting.** This meeting can be attended in-person at the Tacoma Municipal Building, Council Chambers, located at 747 Market Street on the 1st floor or be heard by dialing (253) 215 – 8782 or through Zoom at: www.zoom.us/j/89496171192 and entering the meeting ID 894 9617 1192; passcode 89659 when prompted. This meeting will be broadcast on TV Tacoma.

Discussion items will include:

- **2025 – 2026 Mid-Biennium Budget Modifications**

10. The updated **Tentative City Council Forecast and Consolidated Standing Committee Calendars** are attached for your information.

MARK YOUR CALENDARS

11. You are invited to the below events:

- **Tacoma Arts Month Invitation:** This October, the community and City Council Members are invited to join the celebration of Tacoma Arts Month, with opportunities to experience the creativity and vibrancy of our community firsthand. Council and community members can also explore dozens of neighborhood events, performances, and exhibitions throughout the month. To find arts experiences happening in your district, visit the Tacoma Arts Month Events Calendar at TacomaArtsMonth.org. Highlights include:
 - **Tacoma Studio Tour:** October 11 – 12, 11:00 a.m. – 5:00 p.m., locations all over Tacoma, with over 100 artists citywide.
 - **Arts at the Armory November:** 15 – 16, 2025, 11:00 a.m. – 5:00 p.m., Tacoma Armory, 310 South 9th Street, Tacoma, WA 98402.
- **The City, in collaboration with the Green Tacoma Partnership, is celebrating Green Tacoma Day and Arbor Day:** October 11, 2025, 9:00 a.m. – 12:00 p.m. This year 11 organizations are hosting 13 different sites throughout the City and greater Tacoma area. The Green Tacoma Partnership is celebrating 20 years of community stewardship, engagement, and education in Tacoma's urban green spaces! For more information, event details, and registration link, please visit greentacomaday.org.
- **Hosmer Trunk or Treat: October 31, 2025, Kaiser Permanente Steele Street Medical Center, 9509 South Steet Street. Tacoma, WA 98444.** The Tacoma Police Department is partnering with the Southend Neighborhood Council, Sage Investment Group and Hosmer Business Association to bring you our 3rd Annual Hosmer Trunk or Treat. The goal is to provide a place for families to enjoy a Trunk or Treat Event that is safe, full of fun and filled with festivities. For more event details, please email senco253@gmail.com or bsmith7@tacoma.gov.

Sincerely,

Hyun Kim
Interim City Manager

TO: Hyun Kim, Interim City Manager
FROM: Council Member John Hines and Christina Caan, Policy Analyst
COPY: City Council and City Clerk
SUBJECT: Ordinance Request -- Amending Title 8 of the Municipal Code, relating to camping and storage of personal belongings on public property – October 14, 2025
DATE: October 8, 2025

SUMMARY AND PURPOSE

An ordinance amending Title 8 of the Municipal Code, relating to camping and storage of personal belongings on public property.

COUNCIL SPONSORS

Council Member John Hines, Mayor Victoria Woodards, Council Member Sarah Rumbaugh, and Council Member Sandesh Sadalge

LEGISLATIVE INTENT

As the City of Tacoma expands more permanent shelter capacity and housing pathways, temporary and emergency shelter sites are concluding as planned, resulting in rapid changes to the City's prohibitions for camping and the storage of personal belongings on public property established by Second Amended Substitute Ordinance 28831.¹ Specifically, the planned closing of three emergency shelters has left neighborhoods across Hilltop and Downtown without any prohibitions for camping and storage of personal belongings on public property.

- In 2022, the City Council adopted Second Amended Substitute Ordinance 28831, which prohibited camping and the storage of personal belongings in a 10-block radius around temporary shelters, as well as Aspen Court (a City-permitted emergency and transitional housing facility), and all public property within 200 feet of Tacoma's mapped rivers, waterways, creeks, streams, and shorelines.
- As of July 31, three emergency shelters in Tacoma have concluded operations and therefore no longer provide the 10-block community buffer zones, including the Forging Path Community at 3561 South Pacific Avenue, Alzheimer Memorial Family Shelter at 1121 South Alzheimer Street, and RISE Freedom Project at 2135 Martin Luther King Jr. Way.²

Encampments are returning to areas where the City's community buffer zones have been reduced, including some of Tacoma's lowest opportunity neighborhoods.³ Unauthorized camping and storage of personal belongings on public property impacts the surrounding community by creating public safety and public health hazards, including heightened risk of fires, criminal activities, illegal dumping, and sanitation issues. Camping activity also interferes with the rights of other members of the public to use public areas for their intended purpose.

- The community buffer zones established in Second Amended Substitute Ordinance 28831 proved to be an effective way to address the impacts of encampments. Since implementation began, the community buffer zones have enabled the City to remove 776 encampments in prohibited areas. The Homeless Engagement and Alternatives (HEAL) Team, which has been fully staffed since September 2023, has also been able to

¹ [City of Tacoma - File #: ORD28831](#)

² [Homelessness Services | City of Tacoma](#)

³ [City of Tacoma - File #: 25-0862](#)

offer services to more than 3,300 people in prohibited areas since implementation began, with a 64 percent acceptance rate. Acceptance rates for services have been consistently higher in the prohibited areas than outside them.

Updating the areas where camping and storing personal belongings on public property is prohibited can help build on the progress initiated by Second Amended Substitute Ordinance 28831 and ensure that the City of Tacoma meets its responsibility to keep public areas clean, sanitary, and accessible for all. To do so, we are proposing the following code updates:

- Updating community buffer zones where camping and the storage of personal belongings on public property are prohibited to include areas within 10 blocks of a Temporary or Emergency Shelter located in the “Downtown Zone,” which includes the area north of S. 38th Street, east of S. Union Street, west of the Puyallup River, and south of Commencement Bay; 5 blocks of a Temporary Shelter or Emergency Shelter located outside of the “Downtown Zone;” or 2 blocks of a public school serving grades K-12, public park, or public library.
- Adjusting TMC 8.19.050 to stress that individuals subject to enforcement under TMC 8.19.030 or Section 8.19.040 and who are qualified will be considered for referral to therapeutic court. In 2023, Tacoma launched two therapeutic courts, including a Mental Health Court and a Community Court, that have now demonstrated success.⁴

COMMUNITY ENGAGEMENT

City Council Members frequently receive complaints from local business and community members about the negative impacts they experience from encampments on public property, including concerns about safety and unsanitary conditions. In addition, Council Member Hines has received input from shelter providers requesting buffers around shelter locations. The City of Tacoma declared homelessness a public health emergency in 2017, and addressing concerns regarding the impact of encampments remains a top priority for many residents.⁵ The Pierce County Point-in-Time count data shows that the number of people experiencing homelessness has risen annually since 2021, with almost 3,000 people experiencing homelessness in Pierce County in 2025.⁶

Equity and Accessibility: The conclusion of the community buffer zones in the Hilltop and Downtown neighborhoods make these low opportunity areas more vulnerable to the impacts of encampments, including public safety issues and impacts on local businesses. In addition, communities of color are being disproportionately impacted by encampments, suggesting that taking steps to adjust the community buffer zones to include public schools, public parks, and public libraries will help ensure accessible public spaces for all.

Livability: *Equity Index Score:* Moderate Opportunity

Increase positive public perception of safety and overall quality of life.

⁶ [Pierce County 2025 Homeless Point-in-Time \(PIT\) Count Summary](#)

ALTERNATIVES

Alternative	Positive Impacts	Negative Impacts
Adopt a citywide camping prohibition on public property.	The legal status of camping and storage on public property would be less complex under a citywide prohibition.	The City would likely struggle to effectively enforce a citywide camping ordinance without increased HEAL and TPD resources, impacting community belief and trust in local government.
The City could adopt a different set of community buffer zones based on alternative criteria.	Different locations in the city could be prioritized and have a reduced community impact from encampments.	If alternative locations are prioritized, the City's limited resources would make it more challenging to address community frustrations about encampment impacts within 10 blocks of a Temporary or Emergency Shelter located in the "Downtown Zone," which includes the area north of S. 38th Street, east of S. Union Street, west of the Puyallup River, and south of Commencement Bay; 5 blocks of a Temporary or Emergency Shelter located outside of the "Downtown Zone;" or 2 blocks of a public school serving grades K-12, public park, or public library.

EVALUATIONS AND FOLLOW UP

If approved, Neighborhood and Community Services would continue to provide quarterly updates on implementation, enabling City Council to closely monitor community impacts. Tacoma FIRST 311 will also continue to track and monitor community outreach regarding encampment issues.

SPONSOR RECOMMENDATION

Sponsors recommend approving this ordinance.

FISCAL IMPACT

What Funding is being used to support the expense?

N/A

Are the expenditures and revenues planned and budgeted in this biennium's current budget?

N/A

Are there financial costs or other impacts of not implementing the legislation?

If approved, these ordinance changes are unlikely to require additional resources to implement. HEAL and TPD resources are already positioned to address illegal camping in prohibited zones and have ceased to enforce Title 8 in several of the original prohibited zones that no longer exist. However, due to limited resources, removals will likely need to continue within at least a three-day window. Therapeutic Courts are also already in operation,

although increased enforcement of Title 8 could result in increased costs. Citations under the current ordinance have been limited and keeping citations low would minimize additional costs.

Will the legislation have an ongoing/recurring fiscal impact?

N/A

Will the legislation change the City's FTE/personnel counts?

N/A

Exhibit A: Proposed Code Updates for Chapter 8 of the Tacoma Municipal Code

8.19.020 Defined Terms.

As used in this Chapter, the following terms shall have the following definitions:

“Aspen Court” means a city permitted emergency and transitional housing facility located at 8620 South Hosmer Street.

“Camp” means to pitch, erect, or occupy Camp Facilities, or to use Camp Paraphernalia, or both, for the purpose of, or in such a way as will facilitate, remaining overnight. The term shall not include overnight use of Public Property by the City or the governmental entity that owns or has a property interest in such Public Property.

“Camp Facilities” means, without limitation, tents, huts, and temporary shelters.

“Camp Paraphernalia” means, without limitation, blankets, pillows, tarpaulins, cots, beds or bedding, sleeping bags, hammocks, non-City designated cooking facilities, and/or other similar equipment.

“City” means the City of Tacoma, Washington, the area within the territorial limits of the City.

“Emergency shelter” means a shelter permitted under Tacoma Municipal Code 13.06.080.

“Temporary Shelter” means a shelter permitted under Tacoma Municipal Code 13.06.080.

“Pier” means any pier, wharf, dock, float, gridiron, or other structure where watercraft may anchor or moor.

“Protected Waters” means all public property, within 200 feet of mapped Rivers, Waterways, Creeks, Streams, and the Puget Sound Shorelines, including but not limited to the Puyallup River, First Creek, Roosevelt Ditch, T Street Gulch, Clear Creek, Swan Creek, Squally Creek, the Thea Foss Waterway, the Middle Waterway, the St. Paul Waterway, the Blair Waterway, Wapato Creek, the Hylebos Waterway, Hylebos Creek, and the shorelines of Commencement Bay.

“Public Property” means all property in which the City or any other governmental entity has a property interest, including easements. The term includes, without limitation, all parks, Piers, Streets, trails, forests, park museums, pools, beaches, open spaces, public squares, public schools and associated athletic facilities, grounds around City or other publicly owned or leased buildings, including, but not limited to, parking lots, and any other property in which the City or any other governmental entity has a property interest of any type.

“Store” means to put aside, accumulate, or leave on Public Property for later use, or for safekeeping.

“Street” means, without limitation, any easements, highway, lane, road, street, right-of-way, boulevard, alley, and all Public Property open as a matter of right to public vehicle travel or parking.

(Ord. 28831 Ex. A; passed Oct. 11, 2022)

8.19.030 Unauthorized Use Of Public Property.

Unless otherwise permitted by the Tacoma Municipal Code, it shall be unlawful for any person to Camp within any Public Property that is within:

- a. 10 blocks of a Temporary or Emergency Shelter located in the “Downtown Zone”, which is defined as the area north of S. 38th Street, east of S. Union Street, west of the Puyallup River, and south of Commencement Bay;
- b. 5 blocks of a Temporary or Emergency Shelter located outside of the “Downtown Zone”;
- c. 2 blocks of a public school serving grades kindergarten through 12th grade, public park, or public library;
- d. or within 200 feet of Protected Waters.

In the event that any radius outlined in subsections A through D above bisects a block or a public parcel, such as a park or a school, that the entire block or parcel shall be included in the prohibited area for camping.

(Ord. 28831 Ex. A; passed Oct. 11, 2022)

8.19.040 Unauthorized Storage Of Personal Property On Public Property.

It shall be unlawful for any person to Store personal property, including, without limitation, Camp Facilities and Camp Paraphernalia, within any Public Property that is within:

- a. 10 blocks of a Temporary or Emergency Shelter located in the “Downtown Zone”, which is defined as the area north of S. 38th Street, east of S. Union Street, west of the Puyallup River, and south of Commencement Bay;
- b. 5 blocks of a Temporary or Emergency Shelter located outside of the “Downtown Zone”;
- c. 2 blocks of a public school serving grades kindergarten through 12th grade, public park, or public library;
- d. or within 200 feet of Protected Waters.

In the event that any radius outlined in subsections A through D above bisects a block or a public parcel, such as a park or a school, that the entire block or parcel shall be included in the prohibited area for storage of personal property.

(Ord. 28831 Ex. A; passed Oct. 11, 2022)

8.19.050 Penalty For Violations.

Violation of Section 8.19.030 or Section 8.19.040 of this Chapter is a misdemeanor offense and shall be punished upon conviction of such violation by a fine of not more than \$250, or by imprisonment not to exceed 30 days, or by both such fine and imprisonment. The City’s intent is that individuals subject to enforcement under TMC 8.19.030 or Section 8.19.040 and who are qualified will be considered for referral to therapeutic court. provided that, no less than two weeks prior to issuance of any infraction pursuant to this chapter, notice shall be posted at the location where camping or storage of personal belongings is occurring, so that the Tacoma Pierce County Coalition to End Homelessness can be notified and interested non-governmental organizations and mutual aid groups can offer assistance and resources as needed at this location; except that no posting of such notice, nor notice to any organization, is required when there is a reasonable belief there is significant risk to life, public health or safety, or property due to the camping or storage of personal belongings at this location as prohibited herein.

Sector 2 Weekly Briefing for 29 September 2025 to 05 October 2025

The data is not National Incident Based Reporting System (NIBRS) compliant. Do not compare the results with any report using that standard. The data is dynamic and is subject to change and/or revision. The number of distinct offenses listed on a report are counted. This does not represent reports or individuals. All data is compared to last year for the same number of days or date range. Small numbers may cause large percent increases and decreases. Beginning 1 October 2022, there was a change in how TPD reports certain Aggravated Assaults and Destruction offenses.

City of Tacoma

General Government

2026 State Legislative Policy Positions

The City of Tacoma’s legislative agenda reflects the strategic priorities of the City Council to improve the quality of life for all residents. These priorities include community safety, housing and homelessness, livable wage jobs, access to facilities and services, human and environmental health, and belief and trust.

In advancing these priorities, the City will continue to collaborate and coordinate with community partners, organizations, educational institutions, nonprofits, local businesses, service providers, and other local governments on issues of importance to our City and region. The City supports legislative actions and partnerships that align with these priorities and advance Tacoma’s vision for a thriving and resilient future.

The following outlines the City of Tacoma’s positions on key state legislative policy positions and priorities.

Safety

Public safety is a priority for the City. The City’s objectives related to safety include reducing the number of crimes occurring, particularly firearm-related offenses, and increasing the effectiveness of our response by enhancing coordination with appropriate behavioral health services. The City’s objectives also include increasing the percentage of residents who feel safe and decreasing response times for 911 calls for assistance.

In furtherance of these objectives, the following are specific policy positions related to safety:

Law Enforcement

- **Recruitment and Retention:** The City, like most jurisdictions in the country, is working to increase the number of officers in our law enforcement agency, the Tacoma Police Department (TPD). The TPD is making progress in hiring officers and is using data-driven strategies along

with creative alternatives, such as creating a unit of non-commissioned civilian officers. Continued investment is needed to fully meet staffing levels that support public safety. The City requests that the state build on the efforts of House Bill 2015 (2025) to enhance recruitment and retention efforts through increased, ongoing funding and ensuring sufficient capacity at the state Criminal Justice Training Commission to provide the necessary training for all officers in the state. The City supports efforts to improve the administration of the grant program and local revenue tools provided in House Bill 2015 (2025) to provide direct, ongoing support to local and tribal law enforcement agencies in hiring, retaining, and training law enforcement officers, peer counselors, and behavioral health personnel working in co-response to increase community policing and public safety.

- ***Independent Prosecutions of Police Use of Force:*** The City actively supported the establishment of the Office of Independent Investigations (OII) to conduct transparent, unbiased, and thorough investigations of police use of force cases. While this is an important step, the work is not complete. The state must establish an Office of Independent Prosecutions to review the OII investigations and make transparent, unbiased decisions in these cases. This is critical to the credibility of these investigations and to our community.
- ***Automated Enforcement:*** The City encourages the state to support, retain, and expand local automated enforcement programs to improve traffic safety. Additionally, the City supports efforts to increase the portion of automated enforcement proceeds collected through these programs that can be retained by the City to implement additional traffic safety measures.
- ***Automated License Plate Readers/FLOCK Cameras:*** The City supports efforts to clarify the public records laws related to license plate reader video footage, while not limiting the use of this technology to solve crimes.
- ***Public Defense:*** Criminal indigent defense is a constitutional right. While the state has provided some funding to cities to improve public defense, additional funding is needed to provide appropriate public defense services, particularly given the new caseload standards adopted by the Washington Supreme Court. In addition to increased funding, the City supports efforts to enhance the public defense workforce to ensure that there are adequate public defenders available to meet the new caseload standards.
- ***Business Support:*** The City supports businesses, including efforts to prevent organized retail crime and allocate state funding for security enhancements such as shatterproof windows.

Alternative Response

- ***Alternatives to Traditional Law Enforcement Response:*** Programs providing responses that are alternatives to traditional law enforcement are critical to improving public safety. In situations involving individuals experiencing behavioral health issues, programs such as behavioral health

co-responders, diversion, and other alternative programs improve outcomes for the community and law enforcement. It is important to ensure there are services available to people experiencing behavioral health issues when they are in need. The City also supports programs that provide supportive services for individuals experiencing cognitive decline. Additionally, programs that allow appointed unarmed officers with a limited scope of responsibilities and authority to respond to certain low-risk calls will improve community safety, increase feelings of security among community members, and improve relationships between the community and law enforcement. The City encourages the state to expand support of alternative response programs.

- ***Problem-Solving Courts:*** Problem-solving courts differ from traditional courts in that they focus on a type of offense or the person committing the offense. They offer therapeutic and interdisciplinary approaches to addressing the issues underlying criminal behavior. Therapeutic and community courts are types of problem-solving courts. The City supports increased funding for problem-solving courts.
- ***Community Violence Reduction Programs:*** The City has implemented, or is in the process of implementing, programs and services focused on reducing community firearm violence. The City requests that the state continue and increase funding opportunities to allow the implementation of community and law enforcement intervention programs to address firearm violence and to provide programs for young people with the goal of violence prevention. The City encourages the state to support, and provide funding for, prevention programs such as the Summer Teen Late Nights program funded by the City and other partners, to provide young people a safe place to engage in activities.
- ***Community Safety:*** The City is developing a community safety action strategy that will include city actions to support public safety, including actions beyond traditional police and fire responses, and will identify opportunities to support additional community and state actions that further enhance community safety. The City supports state funding and efforts that address the broad community definition of community safety consistent with the City's plans.
- ***Crime Prevention Through Environmental Design:*** Crime Prevention Through Environmental Design (CPTED) programs help reduce the chance of criminal activity by providing guidelines for property owners to use to lower or prevent environmental factors from creating opportunities for crime. The City supports state funding efforts to augment CPTED programs.
- ***Funding and Assistance to Address Substance Abuse Crisis:*** Opioid-related overdoses are the most common cause of accidental death in Pierce County, taking more lives than traffic or firearm fatalities, due largely to increased use of fentanyl. Opioid deaths in Washington are growing most quickly among people ages 18-24. The City supports additional resources and technical assistance from the state to help address the substance addiction crisis in cities. The City also encourages the state to direct funding for staffing; law enforcement assisted diversion;

alternative response programs, including co-responder teams; problem-solving courts; and diversion programs.

Domestic Violence and Sexual Assault Prevention:

- ***Surrender of Weapons:*** The City supports legislation requiring the surrender of firearms in cases involving domestic violence and sexual assault, including following conviction and related to orders for protection and no-contact orders.
- ***Domestic Violence and Sexual Assault Prevention Programs and Services:*** The City supports funding for programs and services to support survivors of domestic violence and sexual assault and encourages the state to ensure there is ongoing funding for these services. The City also supports funding for domestic violence and sexual assault prevention educational programs, such as teach-the-teacher programs.

Fire

- ***Support for Tacoma Fire Department (TFD), including the TFD Emergency Medical Services:*** The Tacoma Fire Department's (TFD) call volume has increased by over 42% since 2006; of these, 80% are for Emergency Medical Services. TFD personnel provide essential services in dangerous and crisis situations. The City supports policies, programming, and resources that assist municipal fire departments to provide services and training, purchase technology and equipment, and address the mental health needs of first responders.
- ***Support for Life Support Services:*** TFD provides Basic and Advanced Life Support Services for the community. A significant portion of medical transportation costs are paid through the Medicaid program. The City supports state-level efforts to ensure sufficient funding for these critical medical transportation costs is available despite any changes to the federal Medicaid program.
- ***Battery Fires:*** Electric battery fires present distinct hazards for first responders, towing operators, and those handling post-fire materials. The City supports implementation of the 2025 Washington State Patrol recommendations to strengthen responder training, update safety and disposal protocols, and provide funding for specialized equipment and local preparedness.

Housing and Homelessness

Housing and homelessness are challenges affecting communities across the state and nation and addressing them requires both immediate action and long-term solutions. Since 2017, the City of Tacoma has operated under a Declaration of State of Public Health Emergency to respond to health and

safety concerns associated with growing encampments, extending the ordinance several times as conditions have evolved.

The City has prioritized a comprehensive approach to housing and homelessness, recognizing that increasing the availability of affordable, diverse housing types is key to long-term solutions. Through initiatives like *Home in Tacoma*, the City is advancing policies and zoning changes that support more housing options, encourage thoughtful growth, and help prevent the displacement of longtime residents. The City's priorities include expanding resources to meet the needs of unhoused community members, reducing unsanctioned encampments and their impacts, increasing permanent supportive housing, producing and preserving affordable housing, and preventing displacement.

Tacoma also recognizes that housing and homelessness are regional challenges that require collaboration across jurisdictions. We are committed to working with local, regional, and federal partners to align policies and leverage resources to create lasting, systemic solutions.

In support of these goals, the following are specific policy positions related to housing and homelessness:

Housing

- ***Housing Development and Land Use Regulations, Codes, and Policies:*** Housing issues within the state are not uniform across cities; therefore, there must be flexibility in legislation adopted to ensure cities are able to implement policies in ways that meet the local constraints and needs, as well as minimize displacement. Consistent with this policy, the City supports the state's efforts to increase density.
- ***Transit-Oriented Development:*** The City has been a leader in planning for housing development and welcomes transit-oriented development. The City will be implementing House Bill 1491 (2025) by the required deadline of December 31, 2029. The state can maximize the benefits of these forthcoming land use changes by allocating funding and incentives to support infrastructure, affordable housing, and public amenities in transit-oriented development areas.
- ***Reducing Displacement:*** Many of the efforts to increase the housing supply impact the ability of individuals on limited incomes to remain housed, including seniors, renters, underserved communities, people with disabilities, and those on fixed incomes. The City has adopted an Anti-Displacement Strategy which includes 21 policy and program actions to prevent and mitigate displacement of Tacoma residents from their homes and communities. The City supports policies to reduce displacement and provide opportunities for those on limited incomes to remain housed. The City supports increased state funding for programs such as rental and housing assistance, home repairs for low-income homeowners, down payment assistance, mortgage assistance, relocation assistance, tenant legal counsel, and acquisition of

land or multifamily buildings in high-displacement areas will allow low-income Tacoma residents to stay in their homes and in their communities.

- **Implementation Support:** The legislature has made significant changes to housing requirements during the past few years. The City is also implementing housing policy adopted by the City Council, much of which is consistent with the state efforts. The City requests the state allow time to implement the recently adopted planning and zoning changes consistent with comprehensive plan update schedules. Additionally, the City requests the state provide adequate time, and technical and financial support for land use and planning requirements.
- **Extreme Weather Response:** Climate change is creating greater demand on public resources. Extreme weather events are becoming more frequent with climate change and are putting our most vulnerable at risk. The City supports grant programs and other funding to support response to extreme weather conditions, including support to prepare and modify our buildings to keep residents safe during extreme weather events.
- **State Funding for Affordable Housing:** The City of Tacoma lacks affordable housing. 37 percent of households in Tacoma pay at least 30 percent of their income on housing costs each month, reducing their ability to pay for other necessities. Since 2015, average rent in Tacoma has increased by 78 percent and home values increased by have increased 58 percent since 2018. In response to this urgent need, the City adopted the [Affordable Housing Action Strategy](#) to guide its efforts to dramatically increase investments in new rental and homeownership opportunities and establish broader anti-displacement measures. While this effort has resulted in an increase in affordable housing units, there is a significant demand that will continue to increase. To further the City efforts to increase the supply of affordable housing the City supports increasing state funding for programs supporting the acquisition, construction, and operation of shelters, permanent supportive housing, and affordable housing, such as the Housing Trust Fund, rapid acquisition funding, establishing Housing Benefit Districts (HBDs), funding mechanisms that can assist with land banking for future affordable development, efforts to enhance home ownership opportunities, and the Connecting Housing to Infrastructure Program (CHIP). The City also supports efforts to provide incentives to developers to build affordable housing, including utility infrastructure incentives and other tools.
- **Expanding Homeownership Opportunities:** Homeownership is the primary tool for building intergenerational wealth and an option to help people stay rooted in their communities. The City supports state efforts to enhance homeownership opportunities, especially among underserved communities through assistance to homebuyers, including downpayment assistance, expanding access to credit and counseling for homebuyers, and modifications to existing programs to support homeownership.

- **Area Median Income Calculation:** Many of the state’s housing programs utilize a percentage of area median income (AMI) to calculate eligibility. AMI is generally calculated using county data. However, the AMI for the City is significantly different from Pierce County as a whole. The City supports statutory changes, clarifications, and other state and federal efforts to allow AMI to be calculated by city, or metropolitan statistical area rather than by county.

Homelessness Services

- **Funding for Shelters:** The City has implemented a [Homelessness Strategy](#) to respond to the homelessness crisis. The strategy includes implementation and operation of temporary shelters to address immediate needs while also encouraging development of affordable housing in our community as a long-term strategy to mitigate incidences of homelessness. The City’s strategy is to transition from our current investment in shelter beds to deeper support of permanent and supportive housing as well as the intervention and stabilization services described in the strategy. The City supports state funding that can be utilized to maintain operations and to continue implementation of the strategy to move towards more permanent solutions for people experiencing homelessness. The state funds should be equitably distributed to ensure that temporary and emergency shelters operated by the City receive funding to allow continued operations. The City supports funding for programs and services to assist people experiencing homelessness, including mental health and substance use disorder treatment services.
- **Rights-of-Way :** The City has adopted [an ordinance](#) regulating encampments on public property near shelter locations. Any legislation adopted by the state should ensure this regulatory authority is maintained. The City supports ongoing funding for the partnership between the Washington State Department of Transportation (WSDOT) and the City of Tacoma to remove homeless encampments from rights-of-way, offer shelter to individuals experiencing homelessness, and undertake reclamation activities which includes graffiti abatement.
- **Recreational Vehicles:** A growing issue is the number of people experiencing homelessness who are living in recreational vehicles (RVs) and, in some cases, individuals are renting the RVs from third parties. There are many health and safety concerns associated with the RVs; however, there are unique challenges addressing RVs. The City supports a statewide response to homelessness issues related to RVs given their potential impacts to the environment and transient nature that allows them to move between local jurisdictions making local enforcement more challenging. The City supports a statewide response that leads with compassion, prioritizes siting and services, and is consistent with the position and priorities of the Council. Additionally, the City supports review and modification of state laws and policies related to the disposal of abandoned or unused RVs that are not being used for habitation and are posing an environmental risk to reduce the barriers to disposal of these RVs.

Rental Housing

- ***Rental Assistance and Tenant Protections:*** The City supports rental assistance and tenant protections to keep rents affordable and individuals housed.
- ***Professional Civil Legal Assistance:*** The City supports funding for civil legal aid services for low-income clients to prevent or mitigate risks of eviction. The City also supports legislation that limits the amount of time an eviction stays on an individual's record.
- ***Prior Criminal History:*** The City supports legislation that would ban discrimination against renters based on a prior criminal record.

Infrastructure

- ***Infrastructure Investments:*** The City supports state infrastructure investments aimed at reducing housing construction costs and accommodating growth. The City has embraced growth and increased density throughout its planning code. To successfully accommodate this growth, the City supports increased state resources for infrastructure such as sidewalks, street lighting, green spaces, electric vehicle charging stations, and other infrastructure integral to urban living. Additionally, investing funding in water, sewer, and stormwater infrastructure necessary to development can help offset rising housing construction costs to make housing more affordable. The City supports programs such as the Connecting Housing to Infrastructure grant program that direct state funding to these infrastructure needs, and expanded and reliable funding for the Public Works Assistance Account, allowing low-interest financing for local infrastructure projects.
- ***Sidewalks:*** The City's sidewalks are part of its transportation system and therefore it is important they are maintained in a safe usable condition. The City supports state policy and budget efforts that would assist the funding of construction and repair of sidewalks city-wide, including allowing for a sidewalk utility or service charge.

Jobs

A City goal is that Tacoma be a growing economy where residents can find livable wage jobs in key industry sectors and for Tacoma to be a place of choice for employers, professionals, and new graduates. To achieve these goals, the City has prioritized workforce development and increasing the number of livable wage jobs in Tacoma. The City also prioritizes increasing the number of small and medium-sized businesses surviving and thriving in the City, including increasing business ownership among historically underrepresented communities, and fostering a greater array of the types of small businesses that call Tacoma home.

In furtherance of these objectives, the following are specific policy positions related to jobs:

Livable Wage Jobs: Tacoma has established alignment between the City and the local workforce development board, allowing us to braid funding across initiatives to increase impact while leveraging the expertise of the private sector, labor, and technical colleges that make up the workforce board, with the goal of increasing the pool of skilled workers who can compete for high-wage jobs. The state should encourage and support similar programs. The City supports additional assistance for local workforce efforts including, but not limited to:

- ***Skills Training:*** Support for upskilling/reskilling workers to meet the evolving demands of emerging industries and workforce gaps, including training for veterinary students to address workforce shortages restricting the delivery of veterinary medical services. The City supports efforts to expand skills training access to underserved areas, such as the Eastside Skills and Training Center.
- ***Apprenticeship Programs:*** Support for apprentice, pre-apprentice programs, and other workforce development programs.
- ***Cross-Sector Partnerships:*** Support for cross-sector initiatives involving labor, business, workforce providers, governments, education, and training entities to develop strategies prepare workers for high-wage jobs.
- ***Barriers to Employment:*** Support for programs that remove barriers to employment for vulnerable populations, including barriers to employment for refugees and immigrants.

Economic Development Tools and Supports: To achieve the City's goals for the economy and workforce, there must be support for large and small businesses, and increased economic development tools and supports. The City supports strategies and partnerships that advance these areas including, but not limited to, the following:

- ***Small and Medium-Sized Businesses:*** Funding and policies that support small and medium-sized businesses, including subsidies and incubators to support disadvantaged businesses struggling with rising market-rate rents and workforce challenges.
- ***Small Business Technical Assistance:*** Funding and policies that provide technical assistance and financial literacy programs to assist small businesses in accessing capital and available grants.
- ***Economic Development Tools:*** Expanding and creating economic development tools, including expanding commercial and industrial development tools.
- ***Advanced Manufacturing and Emerging Industries:*** Building on the City's Economic Development Strategy, Tacoma supports the siting and expansion of manufacturing, research, and development activities that create high-quality, tradable-sector jobs in next-generation industries. The City also supports the strategic use of manufacturing tax incentives to attract new investment and accelerate growth in these sectors.

- **Future-Focused Job Growth:** Expand opportunities in growing sectors such as renewable energy, urban forestry, natural stormwater management, urban agriculture, and green technology. These efforts will strengthen Tacoma’s economy, support innovation, and ensure that residents in historically underserved neighborhoods have access to quality jobs in these emerging fields.
- **Career Pathways:** Establishing career pathways to livable wage jobs in the community, including identifying apprenticeship opportunities to support the public sector. The City supports policy and funding for Fellowship programs like the Strickland Engineer Pathways Academic Fellowship that provide accessible pathways for local students in STEM fields from high school to college to employment in engineering-related careers with the City.
- **Interstate Licensure Compacts:** Adopting additional interstate licensure compacts and policy changes to expedite and ease the occupational licensing process for military spouses.
- **Opportunity Zones:** Opportunity Zones provide a tax incentive for investors to re-invest their unrealized capital gains into dedicated Opportunity Funds, as an encouragement for long-term investments in economically distressed communities. The City supports efforts to maximize Opportunity Zones in the City and their impacts.

Advancing Workforce Opportunity: It is critical to support, expand, and strengthen workforce development activities, including retraining for emerging industry sectors, by ensuring fair access and maximum participation for all individuals. We emphasize building comprehensive and effective programs that connect every individual with the skills needed to succeed in high-demand, high-wage careers, thereby fostering a highly skilled and competitive workforce.

- **Cannabis Industry:** The City supports efforts such as providing technical and financial assistance to reduce barriers to entry for all individuals in the industry and help new businesses thrive.

Access

A key City goal is to ensure that all residents are treated fairly and have access to essential services, community facilities, and opportunities for financial stability. The City is committed to using data to guide decisions, direct resources, and develop strategies that close gaps in access and improve outcomes for residents. This approach also informs how the City prioritizes investments — including expanding language access, improving transportation and mobility options, and ensuring that services reach the communities that need them most.

In furtherance of these objectives, the following are specific policy positions related to access:

Community Empowerment: The City would like to work in partnership with the legislature to advance reforms that address the disparate impacts of systems and institutions on underserved communities. The City supports statewide policies that empower these communities:

- **Washington Future Fund:** The City supports programs and funding that will help to close generational wealth gaps.
- **Guaranteed Income:** Many Tacoma families struggle with financial instability. Tacoma launched a guaranteed income pilot program in 2021, Growing Resilience in Tacoma (GRIT), which granted 100 needy families a monthly, no-strings attached payment. The City supports a state guaranteed income program to stabilize needy families and interrupt cycles of poverty, including funding to extend the local GRIT program for an additional biennium. It is important that the guaranteed income policy proposals include specific language that mitigates any impact the additional income may have on the recipient's eligibility for other public assistance programs.
- **Election Reform:** The City supports legislation that increases voter participation, including supporting the option for jurisdictions to choose whether local elections are conducted on odd or even years, and the option to choose whether to utilize ranked choice voting. The City supports efforts to maintain and improve vote-by-mail elections.
- **People with Disabilities:** The City encourages policies to support individuals with disabilities, including non-apparent disabilities, to ensure access to services and opportunities and to provide equal opportunities, independence, empowerment, integration and inclusion. The City also supports policy options to enhance and incentivize employment options for people with disabilities.

- **College Promise:** The City supports efforts to create a college promise program that links already existing state-level financial aid and guaranteed admissions programs, and that addresses non-tuition cost barriers and incentivizes postsecondary enrollment and persistence through direct cash assistance, as well as investing in student navigation assistance.
- **Community Reinvestment:** The legislature previously set aside funding into the Community Reinvestment Account to invest in communities disproportionately harmed by the historical design and enforcement of state and federal criminal laws and penalties. This initial investment represents the first steps to begin addressing racial, economic, and social disparities within communities, but continued investments are needed to broaden the reach and to impact the long-term economic benefits of the program. The City supports continued funding into the Community Reinvestment Account to promote long-term benefits in the form of community healing, new jobs, home ownership, job retention, increased personal wealth, and higher incomes.
- **Childcare:** Access to childcare is important to Tacoma residents. The City supports funding and policies to expand access to affordable, quality childcare and preschool, including universal Pre-Kindergarten, as well as early childhood mental health services. The City also supports state efforts to expand quality childcare in underserved areas and for people in the building and construction trades.
- **Access to Food and Services:** The City supports the state in developing solutions to ensure there is food and pharmacy access in all neighborhoods.

Arts and Cultural: Tacoma Creates is a voter-approved initiative to increase access to arts, culture, heritage, and science experiences throughout Tacoma by reducing barriers to access and expanding offerings, particularly for underserved youth.

- **Cultural Access Washington:** The City supports advocating for Cultural Access Washington legislation adoption and expansion beyond Tacoma Creates. The City supports funding and policies to increase access to arts, culture, heritage, and science experiences.
- **Arts and Creative Economy:** The City supports state funding and policies that support growth of the arts and creative economy.

Transportation and Infrastructure: The City is strategically guiding investment to develop a safe, accessible, and multimodal transportation system that prioritizes safety, sustainability, and public health while focusing resources to serve the historically underserved communities that depend most heavily on accessible infrastructure. The City has prioritized safety, including committing to Vision Zero and the goal of eliminating traffic fatalities and severe injuries in the City of Tacoma by 2035.

- ***Transportation Network:*** The City is dedicated to building out a local transportation network that supports all modes and is well-maintained and safe. As such, the City supports:
 - Increased funding and local revenue options to maintain and preserve local bridges, roadways, ferries, sidewalks, parks, and trails.
 - Policies and investments that facilitate accessible transit, bicycle, and pedestrian infrastructure and access.
 - Timely delivery of projects funded in the 2015 Connecting Washington and 2022 Move Ahead Washington transportation packages, including the Puget Sound Gateway, Puyallup Avenue Complete Streets Project, HOV lanes on I-5 from 38th to Joint Base Lewis McChord, the Tacoma to Puyallup Trail, and Schuster Parkway Promenade.
 - State partnership to respond to the worsening conditions of the Fishing Wars Memorial Bridge if the seeks funding to assist the replacement of the bridge.
 - State funding to allocate funds to Marine View Drive and the Hosmer Transportation Corridor to improve the safety of each.
 - Policies and investments that support the modernization of short line railroads, including the establishment of a rail modernization tax credit.
 - Increased state funding and policy efforts to improve traffic safety outcomes consistent with the Vision Zero Plan approved by the City Council in 2022.
- ***Access:*** The City supports efforts to ensure access to transportation, including wheelchair accessible rideshare opportunities, and increased funding to make Americans with Disabilities Act (ADA) improvements, such as sidewalk ramps.
- ***City Authority:*** The City opposes legislation that infringes on the City's ability to manage and maintain the right-of-way, such as proposals mandating telecommunications infrastructure or micro-trenching.

- **Transportation System Revenue Source:** The City supports efforts to replace the fuel tax with a new revenue source, such as a road usage charge, to support the maintenance and operation of the state and local transportation network. In recognition that the transportation system is a state and local responsibility, funds from a new revenue source should be shared between state and local governments.
- **Transportation and Infrastructure Funding:** The City supports ongoing and increased funding for transportation and freight mobility grant opportunities including grants that have historically been offered through the Transportation Improvement Board (TIB), the Freight Mobility Strategic Investment Board (FMSIB), WSDOT Bicycle and Pedestrian Program, and the Safe Routes to Schools Program, and the Climate Commitment Act.

Telecommunications

- **Digital Access:** The City supports and encourages efforts to increase digital access including access to low-cost internet service, affordable computers, and digital literacy training resources.
- **High Speed Broadband:** The City supports the extension of pandemic-era initiatives including the Affordable Connectivity Program to promote broadband access in qualified low-income households, including 38,000 eligible households in Tacoma.

Health

The health of Tacoma residents includes physical and behavioral health, including both mental health and substance use disorders; however, it also includes other factors that impact the health and well-being of residents, including environmental and safety issues. The Council prioritizes improving health outcomes in these various areas and reducing disparities.

In furtherance of these objectives, the following are specific policy positions related to health that impact the physical and behavioral health of residents, as well as the health of the environment:

Physical and Behavioral Health

- **Access to Community-Based Behavioral Health Services:** The City supports creating greater access to community-based behavioral health services to include substance use disorder, mental health, and dual diagnosis treatment facilities.
 - **Opioid Crisis:** Given the significant impacts of opioid and fentanyl use, the City supports additional funding for services and supports to address opioid use, including fentanyl.

- **Effective Behavioral Health Treatment.** The City supports efforts to significantly enhance treatment efficacy and patient outcomes by extending Medicaid coverage to at least 10 days for withdrawal management.
- **988:** The City supports the continued utilization and integration of the 988 Suicide & Crisis Lifeline and the need to develop a robust system to triage, provide rapid response, follow-up services, as well as to coordinate 911, law enforcement, and behavioral health.
- **Behavioral Health Workforce:** The City encourages the legislature to advance policies and funding that support a behavioral health workforce. This includes reducing the barriers posed by regulations and certifications on workforce entry into behavioral and medical health fields without improperly impacting quality of care, and investing in local workforce development systems to directly support upskilling and reskilling workers on behalf of behavioral healthcare providers.
- **Programs to Support Vulnerable Populations:** The City supports funding for programs that serve our most vulnerable populations, including Housing & Essential Needs (HEN) and Aged, Blind, and Disabled (ABD) Cash Assistance Program. The City also supports state efforts to provide services, including street medicine for vulnerable populations.
- **Apple Health And SNAP:** The City supports state efforts to preserve and sustain critical state programs in the face of reductions in federal funding, including backfilling key programs such as food assistance, Medicaid, behavioral health, and other programs integral to the state's social safety net.

Environment

Tacoma has [declared a climate emergency](#) and adopted a [Tacoma Climate Action Plan](#) and Green Economic Development Strategy. The City supports continuing efforts to take bold steps to advance transformative climate policies and support of those emerging industries that further the goals of the City's policies. As the state leads the nation in making this transition, the City encourages the state to recognize that historically underrepresented, underserved, and vulnerable communities are expected to experience the first and worst impacts of climate change. The state should equitably support these communities.

The City supports efforts that will improve the health of our environment and align with the City's climate action goals including, but not limited to, the following:

- **State Funding for Local Climate Efforts:** The City supports continuation of the Climate Commitment Act. The City requests the state to support local strategies toward decarbonization and reducing greenhouse gas emissions. The City encourages the state to allocate a portion of the funding generated through the Climate Commitment Act to cities for activities and projects identified in locally developed Climate Action Plans. The City also supports continuing, and

increasing, investments into accounts that support local efforts to address the reduction of greenhouse gas emissions, including the Carbon Emissions Reduction Act (CERA), the Climate Investment Account (CIA), and the Air Quality & Health Disparities Improvement Account (AQHDIA). The City supports efforts to assist tree canopy programs consistent with the policies implemented by the City. The City also supports state grants related to tree inventories, tree canopy assessments, urban forestry plans, and funding for tree maintenance efforts.

- **Local Health and Opportunity:** The City recognizes that areas designated as Opportunity Zones and other economically distressed communities are often disproportionately impacted by poor air quality, which affects the health and workforce productivity of residents. The City supports state programs to drive the deployment of clean air technologies and modern infrastructure within these key economic areas. We encourage state efforts that ensure these investments lead to measurable public health improvements and create local jobs by ensuring full parity in accessing new technologies and infrastructure upgrades.
- **Electric Vehicles:** The City encourages the state to support funding for vehicle and bicycle electrification, including continuing to offer the e-bike incentive program with additional funding. The City supports efforts to support zero emissions truck program to provide equitable access to heavy duty electric trucks and high speed truck charging to ensure highly impacted communities in Tacoma benefit from the Climate Commitment Act. The City supports state funding related to establishing electric vehicle charging stations, including accessible vehicle charging stations, and related necessary infrastructure improvements.
- **Climate Adaptation:** The City encourages policies and investments that support the City in preparing for the changes occurring due to climate change, including intensifying rainfall events, extreme heat and wildfire smoke such as heat pump installation and development of resilience centers. Additionally, sea level rise is a significant concern for our shoreline habitat and vulnerable infrastructure and will need investments to protect these assets.
- **Carbon:** The City encourages policies and investments that reduce the carbon intensity of new and existing buildings, including expanding energy efficiency, electrification through heat pumps, green building standards, upgrades to public buildings, and other measures. The City supports utilizing a greater portion of the Climate Commitment Act funding to support decarbonization efforts.
- **Investments to Improve Fish Passage and Water Quality:** The City encourages investments in local culvert and stormwater projects to improve fish passage and water quality.
- **Reuse and Recycling:** The City encourages policies and investments that prevent waste and create opportunities for reuse and recycling markets, including extended producer responsibility and product stewardship models.

- **Tree Impact Fees:** The City supports efforts to provide incentives to developers for tree preservation and planting, such as tree impact fees or reductions to impact fees related to trees.
- **Asarco Smelter Plume and Soil Contaminants:** The City encourages continuing to fund the Department of Ecology’s program to address legacy contamination from the Asarco smelter plume in Tacoma, as well as increased notification to homebuyers purchasing a property within the area impacted by the smelter plume, as well as notification to homebuyers for other soil contaminants such as pesticide residue from former apple orchards.
- **Parks Rx:** The City supports efforts to incentivize access to nature and wellness programs by creating partnerships among health providers and park systems to improve physical and mental health outcomes such as Parks Rx, legislation supported by Parks Tacoma and The Tacoma Pierce County Health Department.
- **Reducing Air Pollution from Local Production Facilities.** The City supports legislative efforts to provide cities with more authority to address nuisances or complaints regarding perceived nuisances from production facilities in their jurisdiction. The City also supports efforts to place restrictions on certain types of facilities, such as based on their location and the population of the jurisdiction.
- **Environmental Support for Businesses:** The City supports state efforts to provide protections and assistance for business lessees and owners related to grease interceptor systems, including requirements to share information, lease supports, and environmental facilities upgrade grants.

It is also important that the work to address environmental impacts are based on science and data, including, but not limited to the following issues:

- **Nutrients:** Ensure that policies and requirements that are intended to protect the health of the Puget Sound, such as with the Department of Ecology’s regulation of wastewater treatment plant nutrients, are based in science and that the state works with, and supports, the City to improve practices based on science.
- **Biosolids:** Ensure that environmentally friendly programs, such as the City’s TAGRO “Tacoma Grow” products, are supported and preserved.

Additional Policy Positions

Fiscal Issues

- **State-Shared Revenue:** Cities provide many services residents rely upon including transportation, affordable housing, and public safety. These services need to expand each year due to population growth, aging infrastructure, and changing community needs. Cities rely on

state-shared revenue funds to assist in continuing to provide these critical public services. The City supports efforts to protect and enhance state-shared revenues, including but not limited to liquor taxes, cannabis excise taxes, and the Municipal Criminal Justice Assistance Account.

- **Capital Improvements:** The City requests the state to support City efforts to achieve capital improvements to City property aligned with the Facility Advisory Committee report. The City also supports an increase in the Library Capital Improvement Program.
- **Fiscal Sustainability:** In addition to the increase in service needs, revenues are fluctuating and the City is anticipating a reduction in revenue. To assist with providing critical public service needs, the City supports legislation that protect or increase the City's authority and ability to raise revenue, including but not limited to increasing the 1% property tax limit and ensuring there are not restrictions on the City's authority to impose a local business and occupation (B&O) tax and business license requirements. Additionally, the City supports legislation that clarifies that the city can collect B&O tax on royalties.

The City supports efforts to review and revise both state and local tax structures such that they rely less on regressive revenue options. Changes to the state tax structure should not negatively impact cities' revenue authority and should allow cities revenue flexibility to address their community's needs.

- **Retirement Investments:** The City operates its own retirement program for city employees, as well as the city's LEOFF 1 retirement program. The City is opposed to any proposal that requires the City to cede these operations to the Washington State Investment Board, that transfers reserves out of the programs or otherwise negatively impacts the operations.
- **State Infrastructure Bank:** The City supports the creation of a state-sponsored financing cooperative option that provides low-interest (less than market rate) public infrastructure financing specifically targeting urban areas to support the creation and retention of livable wage jobs.
- **Participatory Budgeting:** The City of Tacoma has piloted Participatory Budgeting and achieved great success in engaging thousands of community members. The City supports state efforts to increase participation in civic and community building through direct budget decision-making.

Planning

- **Local Control:** The City prioritizes public input and community engagement in local decision-making. The state should honor local decision-making authority and the public processes that support the local decision-making. The City opposes preemption, particularly in areas the City currently has ordinances in place such as in the area of adult entertainment establishments.

- ***Growth Management Act (GMA) Reform:*** The City supports the objective of the Growth Management Act (GMA) to focus growth in urban centers. The City recognizes that additional changes are needed to the Act to ensure its effectiveness in spurring growth near infrastructure and avoiding unintended consequences. The City supports proposals that further facilitate annexations, growth within urban centers, and provides dedicated planning funding to local jurisdictions to implement any new policies or responsibilities.
- ***Annexation:*** The City encourages the state to consider policies that address the financial challenges involved with annexations, including the funding needed to upgrade infrastructure in newly annexed areas.
- ***Transfer of State Obligations:*** The City supports statutes and practices that provide sufficient input and controls over the obligations and responsibilities created for the City with the transfer of property from the state. This includes when the state transfers obligations to the City, such as the transfer of portions of state highway to City responsibility.
- ***Local Planning Implementation:*** The City supports state efforts to assist local jurisdictions implement planning processes including but not limited to the Tideflats Subarea Planning Project in Tacoma. This may include brownfields, transportation studies, or infrastructure investment.

General Government

- ***Public Disclosure, Participation, and Transparency:*** The City supports providing protections for municipal employees to the same extent as those provided to state employees. The City supports exploring ways to reduce the impact of abusive public records requests and litigation while maintaining transparency. The City also supports expanded opportunities for public comment and participation in public meetings when done in a manner that the city can implement efficiently and cost-effectively.
- ***Protecting Library Workers:*** Tacoma Public Libraries supports protecting library employees in the same manner as all public sector employees.
- ***Challenges to Intellectual Freedom:*** Tacoma Public Libraries opposes legislation that restricts intellectual freedom. The City support ensuring access to a wide range of materials, free of charge, through our public library system.
- ***Liability:*** The City supports protecting against liability expansion and new policies that would drive additional claims and litigation increasing costs, especially in the area of public works, law enforcement, and public safety. The City opposes legislation that would negatively impact the City's self-insurance program.
- ***Public Works Contract Thresholds:*** The City supports state modifications to public works contract thresholds that provide the City with flexibility.

Immigration and Detention

- ***Immigration:*** The City supports policies that allow Tacoma's immigrant community to feel safe, secure, and welcomed in the state.
- ***Detention:*** The City supports policies that ensure the health, safety, and welfare of individuals detained in detention facilities located in the City. The City supports policies that limit expansion of any private facilities.
- ***Support for Health, Safety, and Welfare of Individuals Detained at the NWIPC:*** The City supports ensuring the health, safety, and welfare of individuals in the NWIPC are protected, as well as legislation that impacts sharing of information or individuals being placed in the facility consistent with the position of the City Council.

Other Issues:

- ***City Codes and Policies:*** Ensure that state laws and policies are consistent with, or allow for the continuation of, policies adopted by the Council in areas that impact residents of the City of Tacoma including, but not limited to, electric fences, control of rights-of-way, clean energy sites, and animals.
- ***Events and Venues:*** The City operates venues, including the Tacoma Dome, and hosts events that attract tourism and economic benefits to Tacoma and Pierce County that are important to the region. The City supports efforts to improve transparency but opposes additional state regulations that will negatively impact the venues' operations.
- ***Youth School Enrollment:*** Many young people did not return to school when in-person learning resumed following COVID. The City supports efforts to obtain and review the data on the youth who did not return to school and implement programs to re-engage these youth and provide appropriate services.
- ***Psilocybin Substances:*** The City encourages the legislature to consider decriminalizing psilocybin substances in light of the growing research indicating potential medical uses for the substances and the number of local jurisdictions and states that are decriminalizing the substance.
- ***Litter and Graffiti:*** Litter, trash, and graffiti are concerns that exist beyond the issues related to homelessness. Yearly litter accumulation rates per acre are highest on urban freeway on-ramps and off-ramps. The City supports the state increasing its efforts to address litter, trash, and graffiti in areas that are its responsibility including, but not limited to, freeway on-ramps and off-ramps, and in rights-of-way areas. The City also supports funding for City cleanup efforts in these areas. The City encourages the state to provide additional resources for abatement of unsolicited graffiti, particularly on rights-of way inside city jurisdictions, including review of and expanding the state litter. Additionally, the City supports state efforts to create murals and local art on blank walls along the freeway and rights-of-way to discourage graffiti.

City of Tacoma

General Government

2026 State Legislative Priorities

Preservation of Services Amid Federal Cuts: The City encourages Washington State to preserve and sustain critical state programs in the face of reductions in federal funding, including backfilling key programs such as food assistance, Medicaid, behavioral health, and other programs integral to the state's social safety network.

Fiscal Sustainability: Like the state, the City has faced budget challenges that have led to service reductions. As the state develops its supplemental budgets, the City encourages the Legislature to refrain from reducing state revenues that are distributed to cities. Additionally, the City supports proposals that would provide local governments with a sustainable, progressive, and equitable tax system, including revenue tools and flexibility with existing revenues.

Capital Requests:

North End Treatment Plant (NETP) Trickling Filter Project

Funding to construct a new trickling filter, which is an essential component of the NETP's wastewater treatment process that provides the second stage of contaminant removal and allows the NETP to reliably meet its National Pollutant Discharge Elimination System (NPDES) permit regulations.

Request Amount: \$2 Million

Other Issues of Importance

- **Wastewater Treatment Plant Nutrient Regulation:** The City is requesting legislative engagement on wastewater treatment plant nutrient regulations being proposed by the Department of Ecology to ensure that the regulations balance water quality and housing affordability.
- **Transfer of State Obligations:** The City is requesting legislation to update the statutory framework for the process WSDOT uses to transfer state property to local jurisdictions,

in order to allow more input from local jurisdictions and to require appropriate due diligence prior to the transfer.

- **Sidewalk Utility:** The City is interested in the development of new tools for local infrastructure needs related not just to expansion and growth, but also for maintenance of aging systems. The City will be asking the Legislature to explore options for additional revenue sources for sidewalks and infrastructure needs, including creation of sidewalk utilities.
- **Continued Advocacy for Transportation Projects (Transportation Request):** The City is dedicated to building out a local transportation network that supports all modes and is well-maintained and safe. As such, the City supports: Increased funding and local revenue options to maintain and preserve local bridges, roadways, ferries, sidewalks, parks, and trails. The City requests the state's partnership to respond to the worsening condition of the Fishing Wars Memorial Bridge. The bridge provides freight mobility, emergency response, and access for the Port of Tacoma, the cities of Tacoma and Fife, and the Puyallup Tribe.

City of Tacoma

General Government

2026 Federal Legislative Priorities

Preserving Critical Funding for Residents: The City urges Congress to protect and strengthen key federal programs that support health, food security, and general well-being, which are vital for community stability and local economic health. Specifically, Congress must maintain robust funding for the Affordable Care Act (ACA) and Medicaid to ensure affordable healthcare and avoid shifting uncompensated care costs to the local level, including critical emergency medical and life support services provided by the Tacoma Fire Department, which rely on Medicaid reimbursements to cover a significant share of medical transportation costs. Furthermore, the City stresses the importance of preserving funding for the Supplemental Nutrition Assistance Program (SNAP) and the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), which are essential anti-hunger measures that improve maternal and child health and reduce food insecurity. The City also calls for continued support of critical Social Services Block Grants (SSBG) that fund local services, ultimately preventing local service demand from overwhelming city and county resources.

Infrastructure: As Congress focuses on federal surface transportation reauthorization, the City urges lawmakers to provide sustained, predictable funding that strengthens safety and supports commerce. We seek investment in local safety measures including technology and facility upgrades that prevent fatalities and injuries, and continued infrastructure funding for freight movement essential to our trade-dependent economy. This includes federal support to complete Phase II of the Fishing Wars Memorial Bridge replacement, a critical corridor for freight mobility, emergency response, and Port access. We also urge increased formula funding directly to local governments and continued access to competitive programs like Safe Streets and Roads for All to advance Vision Zero goals.

Affordable Housing and Home Ownership: With the enactment of the budget reconciliation law, the City looks to leverage tax provisions to address the housing shortage and invest in underserved communities, including the expansion of the Low-Income Housing Tax Credit (LIHTC) and second round of Opportunity Zone designations. Building upon those recent legislative victories, the City urges Congress to maintain critical formula funding administered by the U.S. Department of Housing and Urban Development to fully realize the potential of the reconciliation measure. The City advocates for increasing appropriations for the HOME Investment Partnerships Program as important gap financing for LIHTC projects to increase the supply of affordable housing, and the Community Development Block Grant to advance economic development goals, maintain public infrastructure, and provide services to low-moderate income residents. The City urges lawmakers to maintain housing vouchers and funding for programs and strategies that prevent and address homelessness.

Community Safety: The City of Tacoma is committed to a multi-layered public safety approach in 2026, prioritizing crime reduction and effective response with a federal-local partnership. We seek increased federal funding to support the full spectrum of public safety personnel that have contributed to year-over-year reductions in crime in Tacoma, specifically by expanding eligibility for non-sworn personnel—such as behavioral health co-responders and Community Service Officers—who lead successful alternative response and non-violent incident programs, freeing up sworn law enforcement officers to focus on violent crime and apprehension of offenders. Funding must be directed toward general violence reduction initiatives, including evidence-based strategies focused on prevention, intervention, and positive youth development. Finally, recognizing the strain on our emergency services, we advocate for increased federal investment to support our frontline workers like Fire/EMS with necessary equipment, wellness programs, and fleet and facility modernization.

Supporting Human Rights and Dignity: The City of Tacoma remains steadfast in its commitment to supporting and valuing all individuals in our community, ensuring all Tacomans are afforded human rights and dignity, and fostering trust across all city operations, including participatory budgeting and neighborhood planning. We urge Congress to advance comprehensive immigration reform that provides a clear pathway to status and citizenship, stabilizes our local workforce, and promotes family unity. The City of Tacoma will continue to partner with state and federal entities to seek sustained support, resources, and policy changes that uphold the rights and well-being of every member of our community.

City of Tacoma

General Government

2026 Federal Legislative Policy

The City of Tacoma's legislative agenda reflects the strategic priorities adopted by the City Council to improve the quality of life for all residents. These priorities include community safety, housing and homelessness, livable wage jobs, access to facilities and services, human and environmental health, and belief and trust.

In advancing these priorities, the City will continue to collaborate with community partners, educational institutions, nonprofits, local businesses, service providers, and governments at all levels on issues of importance to our City and region. We support legislative actions and partnerships that align with these priorities and advance Tacoma's vision for a thriving and resilient future.

The following outlines the City of Tacoma's positions on key federal legislative issues and priorities.

Safety

Public safety is a priority for the City. The City's objectives include reducing the number of crimes occurring, particularly firearm-related offenses, and increasing the effectiveness of our response by enhancing coordination with appropriate behavioral health services. The City objectives also include increasing the percentage of residents who feel safe and decreasing response times for 911 calls for assistance.

In furtherance of these objectives, the following are specific policy positions related to safety:

Law Enforcement

- ***Recruitment and Staffing:*** Like many jurisdictions across the country, the City of Tacoma is working to increase the number of officers in our law enforcement agency, the Tacoma Police Department (TPD). The department is making strong progress in hiring and is employing data-driven strategies along with innovative approaches such as establishing a unit of non-commissioned civilian officers. Continued investment is needed to fully meet staffing levels that support public safety. The City supports adequate funding for programs that help cities recruit, train, and develop local law enforcement personnel, as well as efforts to expand federal grant eligibility to include community service officers responding to low-risk calls.

- **Public Defense Funding:** Criminal indigent defense is a constitutional right. While Congress has historically funded public defenders through the appropriations process, additional funding is needed to provide appropriate public defense services, particularly as demand increases due to new prosecution initiatives and expanded jurisdiction over certain offenses on tribal land.

Alternative Response

- **Alternatives to Traditional Law Enforcement Response:** Programs that provide responses that are alternatives to traditional law enforcement are critical to improving public safety. In situations involving individuals experiencing behavioral health issues, programs such as behavioral health co-responder, diversion, and other alternative programs improve outcomes for the community and law enforcement. The City supports funding and programs to assist local jurisdictions with the establishment, expansion, and operation of alternative response programs, such as co-responder, diversion and other models that provide options beyond law enforcement for responding to situations involving individuals experiencing from behavioral health issues, including cognitive decline.
- **Problem Solving Courts:** Problem-solving courts differ from traditional courts in that they focus on a type of offense or the person committing the offense. They offer therapeutic and interdisciplinary approaches to addressing issues underlying the criminal behavior. The City supports maintaining funding and programs, such as the Bureau of Justice Assistance Adult Treatment Court Program, that provide assistance to local governments to plan, implement, and enhance the operations of adult treatment courts.
- **Violence Reduction Programs:** The City has implemented, or is in the process of implementing, programs and services focused on reducing community firearm violence. The City supports funding opportunities to allow the implementation of community and law enforcement programs to address firearm violence and to provide programs for young people with the goal of violence prevention.
- **Community Safety:** The City is developing a community safety action strategy that will include city actions to support public safety, including actions beyond traditional police and fire responses, and will identify opportunities to support additional community and legislative actions that further enhance community safety. The City supports federal efforts to address the root causes of poverty which will increase community safety, consistent with the City's plans.

Specific Criminal Offenses

- **Hate Crimes:** The City supports federal initiatives that address and prevent hate crimes and hate incidents. We are committed to fostering a safe community where every resident is treated with dignity and respect.

- **Substance Use:** Opioid-related overdoses are the most [common cause of accidental death](#) in Pierce County, taking more lives than traffic or firearm fatalities,¹ due largely to increased use of fentanyl. Opioid deaths in Washington are growing most quickly among people ages 18-24. The City supports additional resources and technical assistance from the federal government to help federal, state, and local law enforcement address the substance addiction crisis in cities.
- **Domestic Violence and Sexual Assault:** The City supports funding for programs and services to support survivors of domestic violence and sexual assault. The City also supports funding for domestic violence and sexual assault prevention education programs. The City supports legislation requiring the surrender of firearms in cases involving domestic violence or sexual assault, including following conviction and related to orders for protection and no-contact orders.

Fire

- **Support Tacoma Fire Department, including TFD Emergency Medical Services:** The Tacoma Fire Department's (TFD) call volume has increased by over 40% since 2006; of these, 80% have been for Emergency Medical Services. TFD personnel provide essential services in dangerous and crisis situations. The City supports policies, programming and resources that assist municipal fire departments to provide services and training, purchase technology and equipment, and address the mental health needs of first responders. These include, but are not limited to, protecting public safety grant programs, increasing funding and reimbursement options for emergency medical response and patient transport, and providing resources for responding to emerging hazards such as electric vehicle and battery fires.
- **Support for Life Support Services:** TFD is a critical provider of Basic and Advanced Life Support Services. The city strongly advocates for maintaining vital Medicaid funding, as these federal resources cover a significant portion of our medical transportation fees. This sustained support is essential for ensuring the costs of these critical services are reliably managed through the program
- **Battery Fires:** Lithium-ion battery fires pose unique risks to users and first responders. The City supports a study of fires related to electric batteries to inform policies and practices to reduce risk and improve opportunities for safer disposal. The City supports federal legislation that would require the Consumer Product Safety Commission (CPSC) to create, in a timely manner, a federal safety standard for rechargeable lithium-ion batteries used in micromobility devices, such as e-bicycles, e-scooters, and hoverboards.

Housing and Homelessness

Housing and homelessness are challenges affecting communities across the state and nation and addressing them requires both immediate action and long-term solutions. Since 2017, the City of Tacoma has operated under a Declaration of State of Public Health Emergency to respond to

¹ <https://tpchd.org/info/data/overdose/>

health and safety concerns associated with growing encampments, extending the ordinance several times as conditions have evolved.

The City has prioritized a comprehensive approach to housing and homelessness, recognizing that increasing the availability of affordable, diverse housing types is key to long-term solutions. Guided by the [City's Homelessness Strategy](#), Tacoma advocates for policies, investments, and partnerships that address the full spectrum of need—from emergency response and shelter to permanent supportive housing and prevention. Through initiatives like Home in Tacoma, the City is also pursuing policies and zoning changes that support more housing options, encourage thoughtful growth, and help prevent displacement of longtime residents.

The City's priorities include expanding resources to meet the needs of unhoused community members, reducing unsanctioned encampments and their impacts, increasing permanent supportive housing, producing and preserving affordable housing, and preventing displacement.

Tacoma also recognizes that housing and homelessness are regional challenges that require collaboration across jurisdictions. We are committed to working with local, regional, and federal partners to align policies and leverage resources to create lasting, systemic solutions.

In support of these goals, the following are specific policy positions related to housing and homelessness:

Housing

- **Federal Flexibility:** Cities are on the frontlines of addressing the affordable housing crisis and as such, are best suited to determine how to best deploy federal assistance to serve the neediest communities. The City urges the Administration and lawmakers to preserve and strengthen federal funding for U.S. Department of Housing and Urban Development (HUD) programs, which are essential to producing, preserving, and maintaining affordable housing. In addition, the City supports maintaining increased flexibility in the administration of HUD grant programs, including the extension of the use of HOME Community Housing Development Organization funds and increased administrative allowance for HOME funds, to most effectively respond to project and program oversight requirements.
- **Reducing Displacement:** Many of the efforts to increase the housing supply impact the ability of individuals on limited incomes to remain housed, including senior residents. The City has adopted an Anti-Displacement Strategy which includes 21 policy and program actions to prevent and mitigate displacement of Tacoma residents from their homes and communities. The City supports increased federal funding for programs such as rental and housing assistance and home repairs for low-income homeowners, as well policies to reduce displacement and provide opportunities for those on limited incomes to remain housed, including allowing senior residents to age in place.

Affordable Housing: The City of Tacoma lacks affordable housing. 37-percent of households in Tacoma pay at least 30 percent of their income on housing costs each month, reducing their ability

to pay for other necessities. The cost of rental homes increased by 78-percent since 2015, and home values have increased 58 percent since 2018. In response to this urgent need, the City developed the [Affordable Housing Action Strategy](#) to guide its efforts to dramatically increase investments in new rental and homeownership opportunities and establish broader anti-displacement measures. While this effort has resulted in an increase in affordable housing units, there is a significant demand that will continue to increase.

- **Federal Funding:** With the enactment of the budget reconciliation law, the City looks to leverage tax provisions to addressing housing shortage and invest in underserved communities, including the expansion of the Low-Income Housing Tax Credit and second round of Opportunity Zone designations. Building upon those recent legislative victories, the City urges Congress to maintain critical formula funding administered by the U.S. Department of Housing and Urban Development to fully realize the potential of the reconciliation measure. The City advocates for increasing appropriations for the HOME Investment Partnerships Program as important gap financing for LIHTC projects to increase the supply of affordable housing, and the Community Development Block Grant to advance economic development goals, maintain public infrastructure, and provide services to low-moderate income residents
- **Area Median Income Calculation:** Many state and federal housing programs utilize a percentage of area median income (AMI) to calculate eligibility. WAMI is generally calculated using county data. However, the AMI for the City is significantly different from Pierce County as a whole. The City supports statutory changes, clarifications, and other state and federal efforts to allow AMI to be calculated by city or metropolitan area.

Homeownership

- **Low Income Housing Tax Credit [LIHTC]:** LIHTC is the primary tool for building low and moderate-income rental units in the United States. The City is supportive of the expansion of LIHTC included in the reconciliation bill.
- **Expanding Homeownership Opportunities:** Homeownership is the primary tool for building intergenerational wealth and an option to help people stay rooted in their communities. The City supports federal efforts to enhance home ownership opportunities, especially among underserved communities, through assistance to homebuyers, modifying existing federal programs to support homeownership or fair housing practices, addressing bias in the market, and expanding access to credit and counseling for homebuyers.

Federal Funding

- **Community Investment:** Community development investments build stronger and more resilient communities. The City supports robust funding for programs that support economic development at the local level, such as the U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant (CDBG) program that provides significant financial resources to local governments working to address a variety of needs such as infrastructure, economic development, public facilities, community

centers, housing rehabilitation, small business assistance, homeowner assistance, and more.

Homelessness Services

- **Funding for Shelters:** The City has implemented a [Homelessness Strategy](#) to respond to the homelessness crisis. This strategy includes implementation and operation of temporary shelters to address immediate needs while also encouraging development of affordable housing in our community as a long-term strategy to mitigate incidences of homelessness. The City’s strategy to transition from our current investment in shelter beds to deeper support of permanent and supportive housing as well as the intervention and stabilization services described in the strategy.
 - The City supports flexible federal funding that can be utilized to maintain operations and to continue implementation of the strategy to move towards more permanent solutions for people experiencing homelessness.
 - The City supports federal funding for programs and services to assist people experiencing homelessness, including mental health and substance use disorder treatment services.

Infrastructure

- **Infrastructure Investments:** The City supports infrastructure investments aimed at reducing housing construction costs and accommodating growth. The City has embraced growth and increased density throughout its planning code. To successfully accommodate this growth, the City supports increased federal resources for infrastructure such as sidewalks, street lighting, broadband, and other infrastructure integral to urban living. Additionally, investing funding in water, sewer, and stormwater infrastructure necessary to the development can help offset rising housing constructions costs to make housing more affordable.

Jobs

A City goal is that Tacoma be a growing economy where residents can find livable wage jobs in key industry areas and for Tacoma to be a place of choice for employers, professionals, and new graduates. To achieve these goals, the City has prioritized workforce development and increasing the number of livable wage jobs in Tacoma. The City also prioritizes increasing the number of small businesses surviving and thriving in the City, including increasing business ownership among historically underrepresented communities, and fostering a greater array of the types of small businesses that call Tacoma home.

In furtherance of these objectives, the following are specific policy positions related to jobs:

Livable Wage Jobs: Tacoma has established alignment between the City and local workforce development board, allowing us to braid funding across initiatives to increase impact while leveraging the expertise of the private sector, labor, and technical colleges that make up the workforce board, with the goal of increasing the pool of skilled workers who can compete for high

wage jobs. The federal government should encourage and support similar programs. The City supports additional federal assistance for local workforce efforts including, but not limited to:

- **Skills Training:** Support for upskilling/reskilling workers to meet the evolving demands of emerging industries and workforce gaps.
- **Apprenticeship Programs:** Fully funding apprentice, pre-apprentice programs and other workforce development programs, and reauthorizing the Workforce Innovation and Opportunity Act.
- **Cross-Sector Partnerships:** Support for cross-sector initiatives involving labor, business, workforce providers, governments, education, and training entities to develop strategies prepare workers for high-wage jobs.
- **Barriers to Employment:** Support for programs that remove barriers to employment for vulnerable populations, including barriers to employment for refugees and immigrants.

Economic Development Tools and Supports: To achieve the City goals for the economy and workforce, there must be support for large and small businesses, and increased economic development tools and supports. The City supports strategies and partnerships that advance these areas including, but not limited to, the following:

- **Small and Medium-Sized Businesses:** Funding and policies that support small and medium-sized businesses, including subsidies and incubators to support disadvantaged businesses struggling with rising market-rate rents and workforce challenges.
- **Small Business Technical Assistance:** Funding and policies that provide technical assistance and financial literacy programs to assist small businesses access capital and available grants.
- **Advancing Workforce Opportunity:** It is critical to support, expand, and strengthen workforce development activities, including retraining for emerging industry sectors, by ensuring fair access and maximum participation for all individuals. We emphasize building comprehensive and effective programs that connect every individual with the skills needed to succeed in high-demand, high-wage careers, thereby fostering a highly skilled and competitive national workforce
- **Economic Development Tools:** Expanding and creating economic development tools that will assist the City in developing solutions for the community, including around issues related to food and pharmacy access in all neighborhoods.
- **Advanced Manufacturing and Emerging Industries:** Building on the City's Economic Development Strategy, Tacoma supports the siting and expansion of manufacturing, research, and development activities that create high-quality, tradable-sector jobs in next-generation industries. The City also supports the strategic use of manufacturing tax incentives to attract new investment and accelerate growth in these sectors.

- **Future-Focused Job Growth:** Expand opportunities in growing sectors such as renewable energy, urban forestry, natural stormwater management, urban agriculture, and green technology. These efforts will strengthen Tacoma’s economy, support innovation, and ensure that residents in historically underserved neighborhoods have access to quality jobs in these emerging fields.
- **Career Pathways:** Establishing career pathways to livable wage jobs in the community, including identifying apprenticeship opportunities to support the public sector.
- **Support for Workers:** The City supports direct aid to workers whose employment is impacted as a result of global trade agreements, such as Trade Act Assistance.
- **Opportunity Zones:** Opportunity Zones provide a tax incentive for investors to re-invest their unrealized capital gains into dedicated Opportunity Funds., as encouragement for long-term investments in economically distressed areas. The City supports efforts to maximize Opportunity Zones in the City and their impacts

Access

A key City goal is to ensure that all residents are treated fairly and have access to essential services, community facilities, and opportunities for financial stability. The City is committed to using data to guide decisions, direct resources, and develop strategies that close gaps in access and improve outcomes for residents. This approach also informs how the City prioritizes investments — including expanding language access, improving transportation and mobility options, and ensuring that services reach the communities that need them most.

In furtherance of these objectives, the following are specific policy positions related to access:

Fostering Community Strength and Opportunity: The City supports federal initiatives that promote the safety, well-being, and upward mobility of all our residents by addressing systemic challenges that have historically created barriers in certain communities. The City supports policies that bolster opportunity and full participation in the American economy, including, but not limited to the following:

- **Tax Credits:** Federal tools such as the Earned Income Tax Credit and Child Tax Credit, which support low and moderate-income earners. The City supports continuing and expanding these tools.
- **Guaranteed Income:** Many Tacoma families struggle with financial instability. Tacoma launched a guaranteed income pilot program in 2021, Growing Resilience in Tacoma (GRIT), which granted 100 needy families a monthly, no-strings attached payment. The City supports a national guaranteed income program to stabilize needy families and interrupt cycles of poverty. It is important that the guaranteed income policy proposals include specific language that mitigates any impact additional income may have on the recipient’s eligibility for other public assistance programs.

- **Reparations:** The City supports federal efforts to acknowledge and address the impacts of discriminatory laws and policies on formerly enslaved people and their descendants.
- **Voting Rights:** Voting is fundamental to democracy. The City supports legislation to protect and expand access to voting, including efforts to maintain and improve vote-by-mail elections

Transportation and Infrastructure: The City is strategically guiding investment to develop a safe, accessible, and multimodal transportation system that prioritizes safety and public health, while focusing resources to serve the historically underserved communities that depend most heavily on accessible infrastructure. The City has prioritized safety including through committing to Vision Zero and the goal of eliminating traffic fatalities and severe injuries in the City of Tacoma by 2035. The City will seek federal support for projects of importance to the City, such as Fishing Wars Memorial Bridge Phase II.

- **Public Transit:** Fund public transportation programs as authorized levels in the Bipartisan Infrastructure Law in the annual T-HUD appropriations bill.
- **Safety:** The City supports funding increases for existing transportation safety programs, including but not limited to the Highway Safety Improvement Program, Safe Routes to School, Safe Streets and Roads for All, and the Transportation Alternatives Program.
- **Funding:** While infrastructure financing programs provide flexible funding for major transportation projects and help local governments to leverage private and other nonfederal investments, the City recognizes that limited budget capacity, authorities, and delays in the federal approval process limit the effectiveness of these programs, particularly in disadvantaged communities. The City supports greater technical support at the USDOT Build America Bureau and flexibility for their approving multimodal and jurisdictional projects that can take advantage of favorable federal financing. The City also recommends raising the federal population cap for communities accessing the best available borrowing rates to ensure growing communities can appropriately utilize financing options.
- **Pedestrian and Bike Accessibility:** The City supports maintaining and expanding sustainable funding sources for bicycle and pedestrian trails and facilities, such as the Transportation Alternatives set asides in the Surface Transportation Block Grant program.
- **Bridges:** The City supports maintaining the Bridge Replacement and Rehabilitation program with sufficient funding to repair bridges that are structurally or operationally deficient. Off-system bridges should continue to be eligible for federal bridge funds, and the discretionary bridge program should be preserved. The City will seek federal funding for design and construction of the Fishing Wars Memorial Bridge Phase II project.
- **Harbor Maintenance and Dredging:** The Port of Tacoma is an economic driver for the City and the South Sound, with over 42,000 jobs and \$2.84 billion in income across the Washington state economy. The City supports policies and appropriations that will

maintain the competitiveness of the Port of Tacoma, such as legislation to allow Harbor Maintenance Trust Fund dollars to be spent on port infrastructure uses beyond dredging.

Telecommunications

- ***Preserving City Right of Way:*** The City supports policies that retain local government authority to manage rights-of-way to ensure the siting of cell towers and small cells is safe and appropriate. The City opposes legislation that seeks to preempt local land use and zoning authorities on broadband deployment projects, such as [H.R. 3557](#).
- ***Franchise Fees:*** The City supports reversal of an FCC order to allow franchise fees and EG Fees to be calculated as they have been for over 35 years as monetary-only fees.
- ***Digital Access:*** Access to the Internet is essential for education and employment opportunities, business development, healthcare, government services, and community involvement. The City supports action by the federal government to provide matching grants, technology grants, tax credits, subsidies and other types of aid that would increase broadband deployment and affordability. The City also supports sustained funding of programs such as E-Rate, ReConnect, and other programs that support the buildout of broadband infrastructure. The City urges the federal government to ensure that these and other broadband grant programs are accessible to all communities, whether large or small, rural or urban, as well as municipal broadband network owners and operators.
- ***High Speed Broadband:*** The City supports the extension of pandemic-era initiatives including the Affordable Connectivity Program to promote broadband access in qualified low-income households, including 38,000 eligible households in Tacoma.

Childcare

- ***Access to Childcare:*** Access to childcare is important to Tacoma residents. The City supports policies to expand access to affordable, quality childcare and preschool, including Universal Pre-Kindergarten and early childhood mental health services.

Arts, Culture, and the Creative Economy

- ***Access to Arts:*** Tacoma Creates is a voter-approved initiative to increase access to arts, culture, heritage, and science experiences throughout Tacoma by reducing barriers to access and expanding offerings, particularly to underserved youth. The City supports federal funding and policies to increase access to arts, culture, heritage, and science experiences.
- ***Creative Economy:*** The City supports federal funding and policies that support the growth of the arts and the creative economy.

Health

Health of Tacoma residents includes physical and behavioral health, which includes both mental health and substance use disorder; however, it also includes factors that impact the health and well-being of residents including environmental and safety issues. The Council prioritizes improving health outcomes in these various areas and reducing disparities.

In furtherance of these objectives, the following are specific policy positions related to health that impact the physical and behavioral health of residents, as well as the health of the environment:

Health

- **Healthcare:** The City supports maintaining robust funding for Medicaid and permanently extending the enhanced health insurance premium subsidies under the Affordable Care Act (ACA). The City supports the right to access reproductive and gender affirming care.
- **Domestic Violence/Sexual Assault:** The City supports policies, programs, and funding to assist people impacted by domestic violence and sexual assault. We urge Congress to fully fund programs authorized by the Violence Against Women Act as reauthorized in 2022.

Behavioral Health

- **Access to Services:** The City supports programs that provide funding to increase access to mental health and substance abuse services.
- **Community Health Centers:** Adequately fund community health centers, which play a critical role in providing uninsured and underinsured people with health care services, including mental health and substance abuse treatment.
- **Programs to Support Vulnerable Populations:** The City supports funding for programs that serve our most vulnerable populations.
- **988 Suicide Crisis Lifeline** The City supports increased federal coordination with state, county, and local officials on 988 mental health line implementation to ensure coordinated access to service providers.
- **Behavioral Health Workforce:** The City supports policies and funding that assist local efforts to build out a behavioral health work force. This includes reducing the barriers posed by regulations/certifications on workforce entry into behavioral and medical health fields without improperly impacting quality of care and investing in local workforce development systems to directly support upskilling and reskilling workers on behalf of behavioral healthcare providers.

Environment: The City is committed to responsible environmental stewardship as a key component of building a stronger and more resilient local economy. We will seek federal partnership and support to modernize our local infrastructure and advance initiatives that ensure clean air and water for all residents.

The City supports continuing efforts to take practical, results-driven action to improve the health of our environment and align with the City's local goals, including:

- ***Climate Mitigation and Adaptation:*** The City supports federal financial and technical assistance to support local government vulnerability assessments and climate change mitigation and adaptation implementation efforts to ensure that cities have the information, resources, and tools to adequately plan for and respond to climate change effects.
- ***Local Health and Opportunity:*** The City recognizes that areas designated as Opportunity Zones and other economically distressed communities are often disproportionately impacted by poor air quality, which affects the health and workforce productivity of residents. The City supports federal programs to drive the deployment of clean air technologies and modern infrastructure within these key economic areas. We encourage federal efforts that ensure these investments lead to measurable public health improvements and create local jobs by ensuring full parity in accessing new technologies and infrastructure upgrades.
- ***Interagency Partnership for Sustainable Communities:*** The City supports the Interagency Partnership for Sustainable Communities formed by the U.S. Department of Housing and Urban Development, the U.S. Department of Transportation, and the U.S. Environmental Protection Agency to coordinate housing, community development, transportation, energy, and environmental policies that will help local communities create better and more affordable places to live, work and raise families. The City urges Congress to pass legislation to officially authorize the partnership and to continue funding.
- ***Superfund Sites:*** The City supports federal actions to assist local governments in Superfund site identification and remediation, such as reauthorization of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, also known as Superfund) to ensure that existing hazardous waste disposal sites can continue to be identified, evaluated and cleaned up. Congress should increase the size of the Hazardous Substance Response Trust Fund that supports the Superfund program so it will be adequate to clean up sites already on the National Priority List (NPL) as well as any additional sites added to the list.
- ***Brownfields:*** The City calls on Congress to reauthorize and fully fund the EPA Brownfields program, which supports the assessment, cleanup and redevelopment of sites that are contaminated by the presence or potential presence of a hazardous substance, pollutant or contaminant. The economic redevelopment and environmental restoration of these properties is essential to revitalizing communities and protecting public health.
- ***Reuse and Recycling:*** The City supports investments in domestic infrastructure, support for local and regional recycling programs and education efforts, and policy changes will ensure recycling remains environmentally and economically sustainable.
- ***Landfills:*** The City requests that any new federal mandates that retroactively reclassify specific segments of waste, thus requiring new and more costly disposal methods and/or

retrofitting of existing and closed disposal facilities be accompanied by financing to assist local government with compliance.

- **PFAS Contamination:** The City supports federal policies that ensure that the parties responsible for PFAS contamination, including the federal government but excluding local governments, are held fully liable for costs of cleanup and mitigation and to ensure that sites are cleaned up in a timely manner. The City supports PFAS clean-up standards that are sufficiently stringent to permit reuse of the site and to obviate the need for additional cleanup and mitigation costs by affected local governments.

Additional Policy Positions

Civil Rights

- **Discrimination:** The City supports federal legislation to expand protections to include discrimination based on sexual orientation and gender identity, such as the Equality Act.
- **Equal Pay:** The City encourages the federal government to enact legislation to close gender pay gaps, such as the Paycheck Fairness Act.

Other

- **Human Dignity and Immigration Reform:** The City calls on Congress to take decisive action on comprehensive immigration reform to create a more functional, humane, and orderly system that upholds human dignity. Key priorities for this reform include:
 - **Accountable and Humane Custody:** Ensuring all federal detention facilities maintain adequate health and safety standards and prioritize the wellbeing of individuals in custody. The City urges Congress to eliminate financial incentives for detention by ending the use of private detention facilities and by narrowing the scope of mandatory detention to reserve incarceration for exceptional cases, while expanding cost-effective alternatives.
 - **Enforcement Professionalism:** Requiring all law enforcement officers and agents of the Department of Homeland Security involved in civil immigration enforcement to clearly display official identification and insignia when detaining or arresting individuals. We support policies that prohibit the use of unapproved, non-tactical masks to ensure accountability and public confidence in official actions.
 - **Economic Stability and Status:** Establishing a clear pathway to legal status or citizenship for long-term residents, including individuals known as DREAMERS. Such a framework is vital for maintaining economic stability and securing the American workforce.
 - **Systemic Efficiency and Support:** Reforming the asylum and legal immigration processes to eliminate backlogs and create safe, orderly, and efficient avenues for legal entry, and enacting policies that support refugee and asylum seekers.

- **Joint Base Lewis McChord:** Joint Base Lewis McChord (JBLM) is one of twelve joint bases in the United States and the largest DOD installation west of the Mississippi River, with over 52,000 service members and their families. The installation accounts for \$5 billion in local payroll and a total of \$9.2 billion in regional economic activity. Any downsizing at JBLM would have serious economic consequences for Tacoma and the Puget Sound region. The City opposes any Base Realignment and Closure (BRAC) considerations for JBLM. The City supports federal initiatives that support the health and well-being of our service members and their families.
- **Reconciling Federal and State Cannabis Policy:** Retail cannabis is a multi-million dollar industry in Pierce County, which drives wealth building, economic opportunity, and entrepreneurship. However, local cannabis retailers are not able to access traditional banking services as cannabis remains classified as a controlled substance at the federal level. The City supports legislation that will facilitate local retailers' access to federal financial institutions and business products, including the SAFE Banking Act.
- **Community Project Funding/Community Directed Spending:** The City supports Congressionally Directed Spending and Community Project Funding that provides a singular influx of federal funds for important local projects and requests our Congressional delegation's continued support of these requests and their participation in this process.
- **Low-Income Household Water Assistance Program (LIHWAP):** The City supports continued appropriations for the LIHWAP program to aid low-income water utility ratepayers.
- **Local Control:** The City prioritizes public input and community engagement in local decision-making. The federal government should honor local decision-making authority and the public processes that support local decision-making.
- **Daylight Savings:** The City supports legislation that would make U.S. Daylight Saving Time permanent.

Entheogens: The City encourages the full decriminalization of entheogen-related activities at the federal level in light of growing research indicting potential medical uses for the substances and the number of local jurisdictions and states that are decriminalizing entheogen-related activities.

**CITY OF TACOMA, WASHINGTON
OFFICE OF THE CITY COUNCIL
COUNCIL CONSIDERATION REQUEST**

TO: Mayor & City Council

FROM: Council Member Joe Bushnell and Senior Council Policy Analyst Lynda Foster

COPIES TO: Hyun Kim, Interim City Manager; Allyson Griffith, Deputy City Manager; Chris Bacha, City Attorney

SUBJECT: **Resolution – Authorizing Council Contingency Funds to Support the Larchmont Community Schoolyard project – October 14, 2025**

DATE: October 8, 2025

I ask for your support for a Resolution authorizing a Council Contingency Fund expenditure of \$32,380.44 in support of the Larchmont Community Schoolyard Project.

LEGISLATIVE INTENT:

Council Contingency Fund Request:

The Trust for Public Lands, Parks Tacoma, and Tacoma Public Schools launched a mission to transform Tacoma's schoolyards to vibrant, community spaces through the Community School Yard program. They are working to ensure that every person in Tacoma has a quality park within a 10-minute walk of home. By maximizing the use of existing schoolyards to serve as improved play arenas and increasingly natural spaces for children as well as adults. The first five pilot locations will serve more than 25,000 people in Tacoma's South End and East Tacoma neighborhoods. While the first four projects (Stafford Elementary, Reed Elementary, Mann Elementary, and Whitman Elementary) have been completed, a recent reversal in grant funding disrupted the construction of the Larchmont Elementary Community Schoolyard.

Larchmont Elementary's new community schoolyard would help bring quality green space to over 1,000 nearby residents – addressing one of the largest park access gaps of any major city in Washington. Larchmont Elementary in the Eastside neighborhood of Tacoma currently services 370 students.

While the loss of federal grant funding is a setback, the core project partners, Trust for Public Lands, Parks Tacoma and Tacoma Public Schools each stepped up with additional dollars to create a true community schoolyard park. They are short a small portion of the total \$912,380.55 projected cost and reached out for potential participation by the City of Tacoma as a great show of full community support for helping to fill the 10-minute walk gaps within the City.

FUNDING REQUESTED:
\$ 32,380.44

DESIRED RESOLUTION DATE: October 28, 2025

COMMUNITY ENGAGEMENT/ (CUSTOMER RESEARCH):

The local community in Tacoma has been actively involved in the design of each schoolyard park. Participatory design sessions with students and community members is an integral part of the program, as Parks Tacoma and The Trust for Public Lands has continued to center communities as a core principle and goal of the program. The schoolyard includes a simple playground, a well-worn natural turf field, and vacant grassy area. The grassy area represents a multitude of opportunities to bring the community's vision to life for this play space. Students and neighbors already use the schoolyard regularly for drop-in activities, most notably for cricket. Creating a green schoolyard in this space would fortify community ownership and solidify the schoolyard as a community hub.

2025 STRATEGIC PRIORITIES:

Equity and Accessibility:

When the Community Schoolyard program launched, 31% of Tacoma residents could not access parks or open spaces within a 10-minute walk of their homes, the largest park access gap of any major city in Washington. Renovating and opening all of Tacoma's schoolyards to the public would increase the percentage of Tacomans living near a park from 69% to 88%.

Education: *Equity Index Score: Very Low Opportunity*

Increase the number of quality out of school time learning opportunities distributed equitably across the city.

Demonstrate community support for education by increasing support for school levies and bonds; volunteering and mentoring youth.

Civic Engagement: *Equity Index Score: Very Low Opportunity*

Increase the percentage of residents who believe they are able to have a positive impact on the community and express trust in the public institutions in Tacoma.

Livability: *Equity Index Score: Very Low Opportunity*

Increase the number of Complete Compact Communities/ 20-Minute Neighborhoods throughout the city.

Improve access and proximity by residents to diverse income levels and race/ethnicity to community facilities, services, infrastructure, and employment.

Increase positive public perception of safety and overall quality of life.

How does your policy, program, or service help or harm the health of the natural environment?² (e.g. reduction in carbon emissions, open space conditions, sustainability, clean air, water and soil, and noise and light pollution).

Improve health outcomes and reduce disparities, in alignment with the community health needs assessment and CHIP, for all Tacoma residents

Explain how your legislation will affect the selected indicator(s)?

The very nature of schoolyards directly enhances educational opportunities for youth. The community driven focus of each school yard reflects the needs of communities, and shows children and adults how their needs influence outcomes. Community schoolyards have significant impact on livability for entire neighborhoods. Close-to-home parks serve as essential backyards for millions of people and open up countless possibilities for communities and cities by helping to confront some of today's most pressing urban challenges.

ALTERNATIVES:

Alternative	Positive Impacts	Negative Impacts
1. Do not provide funding, or provide less funding	Preserve resources for other priorities	Larchmont schoolyard project will have to be downsized
3.		

EVALUATIONS AND FOLLOW UP:

The Trust for Public Lands, Parks Tacoma, and Tacoma Public Schools should keep the City of Tacoma apprised of work on this community school yard and the Community School Yard program.

SPONSOR RECOMMENDATION:

Sponsors recommend funding the remaining 32,380.44 needed to complete the final pilot project for the Community Schoolyard Project in Tacoma.

FISCAL IMPACT:

32,380.44 in Council Contingency funds.

If you have a question related to the Council Contingency Fund Request, please contact Lynda Foster at 253.591.5166 or lfoster@Tacoma.gov.
